

**San Joaquin Valley  
Unified Air Pollution Control District  
Best Performance Standard (BPS) x.x.xx**

<b>Class</b>	<b>Ovens</b>
<b>Category</b>	<b>Conveyorized Tortilla Oven</b>
	<p>Tortilla ovens meeting this Best Performance Standard must comply with all elements listed below:</p> <ol style="list-style-type: none"> <li>1. The tortilla oven shall be equipped with a forced draft combustion air fan with air to fuel ratio control for the burner(s).</li> <li>2. The oven stack shall be equipped with a system which provides continuous automatic control of the draft in the oven. A barometric damper meets this criteria.</li> <li>3. Electric motors exceeding 10 horsepower which drive driving combustion air fans shall have an efficiency meeting the standards of the National Electrical Manufacturer's Association (NEMA) for "premium efficiency" motors.</li> </ol>

<b>Percentage Achieved GHG Emission Reduction Relative to Baseline Emissions</b>	<b>10.6%</b>
