Webcast: http://www.valleyair.org/Workshops/public_workshops_idx.htm

Fresno: VTC Room - SJVUAPCD Office, 1990 E. Gettysburg Avenue

Modesto: VTC Room - SJVUAPCD Office, 4800 Enterprise Way

Bakersfield: VTC Room - SJVUAPCD Office, 34946 Flyover Court

The District is proposing to adopt two new rules to implement a new California Air Resources Board (CARB) regulation (Greenhouse Gas Emission Standards for Crude Oil and Natural Gas Facilities) intended to reduce greenhouse gas emissions from Crude Oil and Natural Gas facilities.

The proposed District rules will create a streamlined registration program that will allow the District to implement and enforce the regulation on behalf of CARB and establish fees to reimburse the District for costs of implementing the regulation if CARB does not fully reimburse the District's costs.

Copies of the rules and related documents will be available to download from the District's website no later than October 12, 2017 at:

http://www.valleyair.org/Workshops/public_workshops_idx.htm.

Webcast participants can email written comments or questions during the session to WebCast@valleyair.org. The District recommends that you do not run other programs while viewing the webcast, as it may interrupt or lower the quality of the signal.
