Webcast participants can email written comments or questions during the session to [WebCast@valleyair.org](mailto:WebCast@valleyair.org). The District recommends that you do not run other programs while viewing the webcast, as it may interrupt or lower the quality of the signal.

The District is proposing to amend Rule 2201 (New and Modified Stationary Source Review Rule) to address minor comments from U.S. EPA and the California Air Resources Board (ARB) to clarify rule language for routine replacement of emissions units, Federal Major Modification determinations, and Temporary Replacement Emissions Units (TREUs), and to address federal requirements for PM<sub>2.5</sub> and ozone nonattainment areas. The District will also take this opportunity to make targeted amendments to Rule 2201 (New and Modified Stationary Source Review Rule), Rule 2301 (Emission Reduction Credit Banking), and Rule 2520 (Federally Mandated Operating Permits), specifically to enhance public notice procedures with a requirement for electronic noticing. No other changes are proposed for Rules 2301 and 2520.
