APPLICATION FOR
PORTABLE EQUIPMENT REGISTRATION
SUPPLEMENTAL FORM FOR INTERNAL COMBUSTION ENGINES

- INSTRUCTIONS -

- A.** Pursuant to Rule 3150 – Fees for Portable Equipment Registration, a non-refundable filing fee is required for each emissions unit that will be registered (an additional fee is required if the equipment will be registered as non-active). An emissions unit is any distinct process which 1) consists of the aggregation of equipment items operating together to perform a given function; 2) has the potential to cause the emission of an air contaminant; and 3) is temporary in its operation. An emissions unit may consist of a single piece of equipment or multiple pieces of equipment and includes any associated air pollution control equipment. In accordance with Rule 2280, each IC engine with a maximum rating greater than 50 bhp will be required to be registered or permitted as a separate emissions unit. If you do not know the total number of emissions units, the District will determine that for you and send a bill for the appropriate fee. Make checks or money orders payable to the SJVUAPCD. See District Rule 3150 for additional information on fees: <http://www.valleyair.org/rules/currnrules/R3150.pdf>
