SAN JOAQUIN VALLEY
AIR POLLUTION CONTROL DISTRICT

AG TRACTOR
REPLACEMENT PROGRAM

OFF-ROAD VEHICLE COMPONENT

AGRICULTURAL TRACTOR / MOBILE EQUIPMENT REPLACEMENT OPTION

ELIGIBILITY CRITERIA AND APPLICATION GUIDELINES

The San Joaquin Valley Air Pollution Control District (SJVAPCD) is currently accepting applications requesting monetary incentives to replace existing off-road agricultural tractors and mobile equipment (equipment) with new reduced-emission replacement equipment, according to the terms and conditions described in these guidelines. For additional information, assistance or to receive application materials, please contact:

San Joaquin Valley Air Pollution Control District
Strategies and Incentives Department
1990 East Gettysburg Avenue
Fresno, CA 93726-0244

You may also contact us by phone, email, or visit our website:

PROGRAM REQUIREMENTS

General Information and Eligibility Criteria:

- The SJVAPCD Agricultural Off-Road Tractor/Equipment Replacement Program is **not** a co-funding program. You are not eligible to participate in the SJVAPCD’s program if you are currently under contract to receive funding from any other local, state, or federal agencies for the equipment you intend to submit application.

- Projects will be funded based on a dollar per advertised horsepower basis, based on the advertised horsepower of the engine in the new replacement equipment, not to exceed 60% of eligible costs. Please review the following table for eligible funding amounts.

<table>
<thead>
<tr>
<th>Cotton Pickers &amp; Wheel Loaders (advertised hp rating)</th>
<th>SJVAPCD Incentive</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Horsepower Ratings</td>
<td>$650/hp</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Agricultural Tractors (advertised hp rating)</th>
<th>SJVAPCD Incentive</th>
</tr>
</thead>
<tbody>
<tr>
<td>25-74</td>
<td>$300/hp</td>
</tr>
<tr>
<td>75-149</td>
<td>$350/hp</td>
</tr>
<tr>
<td>150 +</td>
<td>$500/hp</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Specialty Equipment (advertised hp rating)</th>
<th>SJVAPCD Incentive</th>
</tr>
</thead>
<tbody>
<tr>
<td>25-109</td>
<td>$450/hp</td>
</tr>
<tr>
<td>110+</td>
<td>$500/hp</td>
</tr>
</tbody>
</table>

- The maximum eligible incentive amount is calculated up to the cost-effectiveness limit and may not necessarily reflect the maximum funding amount based on the aforementioned funding table.

- Eligible incentive amounts may be reduced after the claim for payment has been finalized, depending on all eligible items invoiced.

- The replacement of two (2) or more old, like equipment with one (1) new replacement equipment is eligible for funding. Each of the old equipment and the new replacement equipment must comply with all appropriate program criteria.

- In the event that the program is severely over-subscribed, the District reserves the right to limit funding to $250,000.00 per entity per fiscal year.

- Submission of a program application **does not** guarantee funding.

ARB is providing flexibility that allows the applicant to opt-out of the default retrofit requirement for equipment not subject to an approved in-use regulation. Applicants will be required to sign a waiver acknowledging whether or not they wish to opt-out of the retrofit requirement or choose to request funding to purchase and install a currently verified retrofit device on their new replacement equipment.

The **existing (old) equipment** must:

- Be mobile, self-propelled off-road agricultural in-use equipment with a compression-ignition (CI) engine greater than or equal to 25 horsepower. Examples of eligible equipment include, but are not limited to; wheel tractor, wheel loader, harvester, baler, combine, grader, and forklifts.
• Agricultural use is defined as follows:

“Agricultural operations” is defined from the California Air Resources Board’s (ARB) Regulation for In-Use Off-Road Diesel Vehicles (Title 13 CCR § 2449): and means (1) the growing or harvesting of crops from soil (including forest operations), and the raising of plants at wholesale nurseries, but not retail nurseries, or the raising of fowl or animals for the primary purpose of making a profit, providing a livelihood, or conducting agricultural research or instruction by an educational institution, or (2) agricultural crop preparation services such as packinghouses, cotton gins, nut hullers and processors, dehydrators, and feed and grain mills. Agricultural crop preparation services include only the first processing after harvest, not subsequent processing, canning, or other similar activities. For forest operations, agricultural crop preparation services include milling, peeling, producing particleboard and medium density fiberboard, and producing woody landscape materials.

• Have an uncontrolled (Tier 0), Tier 1, or Tier 2 engine. This must be documented in the application and will be verified through an inspection process conducted by SJVAPCD staff.

• Been owned and operated in California for the previous two (2) years. If selected for funding, the participant must submit supporting documentation (see page 6).

• Be in operational condition at the time of application submission and SJVAPCD inspections. If selected for funding, the participant must submit documentation demonstrating that the old equipment has been in operational condition for the previous year (see page 7).

• Must be destroyed or rendered permanently in-operable after the new equipment is placed into operation. Destruction of the old equipment must be performed by a participating dismantler contracted with the SJVAPCD. Participant is required to refer to “Payment Procedures” document for full destruction requirements.

➢ The replacement (new) equipment must:

• Have an engine meeting the most recent Model Year California emission standard.
  ▪ Interim Tier 4 (interim Tier 4, Tier 4 Phase-Out, Tier 4 Phase-In/Alternate NOx) and Tier 4 Final engines participating in the averaging, banking and trading program that are certified to family emission limits (FELs) higher than the applicable emission standards, as designated on ARB’s Executive Order, are eligible to participate in the Carl Moyer Program. The appropriate emission factor for calculating emission reductions and cost-effectiveness shall be equivalent to the emission factors associated with the Tier 3 for engines 50 to 750 horsepower and Tier 2 for engines less than 50 horsepower or greater than 750 horsepower.
  ▪ Interim Tier 4 and Tier 4 Final engines participating in the averaging, banking and trading program that are certified to FEL below the applicable emission standards, as designated on ARB’s Executive Order, are eligible to participate in the program. The appropriate emission factor for calculating emission reductions and cost-effectiveness shall be the emission factors associated with the applicable interim Tier 4, (interim Tier 4, Tier 4 Phase-Out, Tier 4 Phase-in/Alternate NOx) or Tier 4 Final emission standard.
The engine in the new equipment must be certified to a NOx emission standard that is at least 15 percent lower than the emission standard(s) applicable to the existing engine and be certified to either the current applicable emission standard, or to a FEL NOx or NOx+non-methane hydrocarbons (NMHC) level that is lower than the required emission standard.

For CI equipment, engines that are participating in the “Tier 4 Early Introduction Incentive for Engine Manufacturers” program, as detailed in California Code of Regulations, title 13, section 2423(b)(6), are eligible for Carl Moyer Program funding provided that they are certified to the final Tier 4 emission standards. The ARB Executive Order for these engines indicates that the engines are certified under this provision. The emission rates for these engines used to determine cost-effectiveness shall be equivalent to the emission factors associated with Tier 3 engines.

Interim Tier 4 CI engines between 75 and 750 hp, certified to the Phase-In, Phase-Out, and Alternate NOx standards as detailed in California Code of Regulations, title 13, section 2423(b)(1)(B), are eligible for funding.

Equipment manufactured under the “Flexibility Provisions for Equipment Manufacturers”, as detailed in California Code of Regulations, title 13, section 2423(d) are eligible for funding as replacement equipment, provided the equipment meets the Tier 3 or cleaner level. Eligible equipment produced under the flexibility provisions whose reference engine family is certified to an FEL are also subject to the provisions of section (1) or (2) above. Equipment manufactured under the “Flexibility Provisions for Equipment Manufacturers,” with an engine whose reference engine family meets a standard, Tier or FEL less stringent than Tier 3 standard (or Tier 2 standard for engines less than 50 horsepower or greater than 750 horsepower), are ineligible for funding.

The certification emission standard and/or Tier designation for the engine must be determined from the Executive Order or United States Environmental Protection Agency Certificate of Conformity (for federally preempted engines) issued for that engine. ARB Executive Orders for off-road engines may be found at http://www.arb.ca.gov/msprog/offroad/cert/cert.php

- Be mobile, self-propelled off-road equipment.
- Have a horsepower rating no greater that 125 percent of the original manufacturer rated horsepower (baseline horsepower) for the old equipment engine.

If the new equipment is not available in the old equipment horsepower range or the higher horsepower equipment will result in equal or less annual emissions, the SJVAPCD may approve a greater than 125 percent increase in horsepower on a case-by-case basis. In such cases, the funding amount will be on a horsepower rating not to exceed 125 percent of the baseline horsepower for the old equipment engine. Documentation from the manufacturer will be required.
• Not have been previously owned and be indicated as new by the dealer at the time of purchase. Used equipment is not eligible for funding as replacement equipment.
  ▪ Equipment that served as rentals, were previously leased, or were floor/demonstration models may be eligible on a case-by-case basis determined by SJVAPCD staff prior to funding. Documentation from the dealer may be required.
  ▪ Equipment must have less than 250 hours at the time of sale.
• Serve the same function and perform the same work equivalent to the old equipment (i.e. replacement of an agricultural tractor with another agricultural tractor).
• Be domiciled within the boundaries of the SJVAPCD (see page 15).
• Have only the minimum attachments normally sold with the original equipment as determined by SJVAPCD staff. Only eligible items will be considered for funding.
  ▪ Implements or attachments on the new replacement equipment may be eligible for funding if the existing equipment was also similarly equipped, and the replacement equipment requires such implements or attachments to perform the same activities as the existing equipment. Such instances will be reviewed and approved on a case-by-case basis by the SJVAPCD.
• Have an operating hour meter to record annual usage in hours.
• Participant agrees to have the “Funded in part by the Valley Air District” sticker attached to the hood of the new replacement equipment (sticker will be provided and attached by a SJVAPCD inspector during the post-inspection prior to incentive reimbursement). Funding will not be dispersed if the aforementioned sticker is not attached and visible for the post-inspection pictures. See below for a picture of the 4”x5” sticker:
The Participant must:

- **Not make purchase, make payments toward, and/or take possession of new equipment prior to receiving a fully executed contract from the SJVAPCD.**

- Remain the owner of the new equipment through the full term of the agreement.
  - If the new equipment is sold during the agreement term, then the new owner of the equipment must assume the agreement obligations with the SJVAPCD and comply with the terms and conditions outlined in the original agreement. The SJVAPCD must approve the equipment ownership change prior to its sale.

- Maintain the replacement equipment in accordance with manufacturer specifications.

- Maintain replacement value insurance for the replacement equipment through the full term of the agreement.

- Operate at least seventy-five percent (75%) of the new replacement equipment’s annual hours within California and fifty percent (50%) within SJVAPCD boundaries (see page 15).

- Purchase a minimum of a one-year or 1,600 hours power and drive train warranty for the replacement equipment.
  - Warranty must cover parts and labor.
  - Documentation must be provided to the SJVAPCD when submitting a claim for reimbursement.
  - Warranty costs are not eligible for funding.

- Ensure the old equipment is destroyed or rendered permanently in-operable. Destruction must be performed by a participating dismantler contracted with the SJVAPCD. Refer to “Payment Procedures” document for full destruction requirements.

- Submit annual reports to the SJVAPCD through the full term of the agreement.

- Install and maintain an operational hour meter on the new equipment. Future annual hours of equipment operation for determining emission reductions must be based only on readings from an installed and fully operational hour meter.
  - The cost of an hour meter is eligible for incentive funding and should be included in the quoted price if the equipment does not have a functioning meter at the time of the project.
  - If during the project life, the hour meter fails for any reason, the hour meter must be repaired or replaced as soon as possible at the owner’s cost.

**Ownership Documentation:**

- If selected for funding, provide **ONE** of the items from the following list showing ownership for the previous two (2) years (24 months):
  - Bill of Sale for the old equipment (preferred)
  - Tax depreciation logs
  - Property tax records
- Equipment insurance records
- Bank appraisals for the equipment
- Maintenance/service records
- General ledgers
- Fuel records specific to the existing equipment that identify the equipment owner
- Other documentation approved by the SJVAPCD and ARB on a case-by-case basis

✈️ Annual Usage Documentation:
- If selected for funding, provide ONE of the following documents showing operational status of the old equipment for the previous one (1) year:
  - Revenue and usage records that identify operation, standby, and down hours for the existing equipment
  - Routine inspections which document the operating condition of the existing equipment (OSHA or workplace required)
  - Employee timesheets linked to specific equipment use
  - Preventative maintenance/service records tied to specific hours of equipment use
  - Repair work orders specific to the equipment
  - Other documentation approved by the SJVAPCD and ARB on a case-by-case basis

✈️ Equipment/Engines Ineligible for funding:
- Equipment currently receiving funding to be replaced under any other local, state or federal programs including the NRCS EQIP Cig (b) Program.
- Equipment that is NOT self-propelled such as, but not limited to; pull behind sprayers, PTO driven equipment, tub grinder, pull behind hay baler, and irrigation pump motors. Other funding opportunities may be available for these types of equipment.
- New replacement equipment engines that are compression ignition (CI) or diesel engines that:
  - Are participating in the averaging, banking, and trading program that are certified to family emission limits higher than the applicable emission standards, as designated on the ARB Executive Order.
  - Are participating in the “Tier 4 Early Introduction Incentive for Engine Manufacturers” program. The ARB executive order for these engines reference that the engines are certified under this citation.
- Additional attachments that are not normally sold with the original equipment, as determined by the SJVAPCD.
- Warranty, setup, document preparation fees, and freight costs. Maintenance or repair costs. The participant is solely responsible for ensuring that the equipment is in operational condition throughout the agreement period.
APPLICANT RESOURCE WEB PAGE

To assist applicants participating in the SJVAPCD’s Heavy-Duty Engine Program, the SJVAPCD has developed an Applicant Resource Web Page. This page contains links to engine manufacturers, distributors, and local dealers familiar with the requirements of the program.

The information and contacts within these links can assist you in obtaining all of the information necessary to fulfill the requirements of the program. Additionally, this page contains links to the California Air Resources Board website where you can obtain a list of eligible engines, vehicles, associated Executive Orders and other technical information.

When preparing an application, we ask that you utilize the information presented within the links on this page. By submitting complete application packets with accurate information, we can reduce the amount of time and resources necessary to process your application.

Please note that the manufacturers, distributors, and dealers represented on this page have not been “approved” by the SJVAPCD nor do they represent an exhaustive list of available resources. If you are an engine manufacturer, distributor, or dealer and you wish to be included on the Applicant Resource Web Page, please contact the SJVAPCD’s Strategies and Incentives Department.

The Applicant Resource Web Page can be found at www.valleyair.org under the “Grants and Incentives” tab.

APPLICATION PACKET GUIDELINES

- Fill out the application completely and as accurately as possible. Do not leave any fields blank, as it lengthens the processing timeframe associated with the application and delays funding. All fields are required unless otherwise indicated.

- A copy of the following items must be submitted in order for the application packet to be deemed complete:
  - Completed Application, which includes:
    - If applicable, completed Third Party Information section
    - Completed and signed Certifications section with original signature
    - Completed and signed Agricultural Operations Certification Form with original signature
    - Completed and signed Off-Road Retrofit Waiver Form with original signature
  - IRS Form W-9
  - Dated and itemized dealer quote for the new equipment
  - If applicable, DOORS documentation

Located in the Application packet (page 6) is a comprehensive detailed checklist of the abovementioned items. For guidance purposes, please refer to the checklist in the Application packet when submitting all required items.
STEP-BY-STEP APPLICATION GUIDE

This section outlines the information requirements for each field of the application. If you need additional assistance, please contact the Strategies and Incentives Department and a staff member will assist you.

SECTION 1 – APPLICANT INFORMATION

ORGANIZATION INFORMATION

1. Organization, Company, or Proprietor’s Name

The legal name of the organization that will enter into agreement with the SJVAPCD. The information entered into Section 1 of the application must be identical to the information on Form W-9, as this information will be used to generate all binding documents and be used to report incentive funding to the IRS.

2. - 5. Address

The physical address where the organization is located, including: number and street name, city, state, and zip code.

6. - 9. Mailing Address

The mailing address used by the organization. If the physical and mailing addresses are the same, write “Same.” All correspondence generated by the SJVAPCD, including the agreement, checks, and annual reports, will be sent to the mailing address.

10. Have you applied to any other grant programs for any equipment in this project?

Check whether additional grant funding was applied for any equipment in this project other than grant funding through this program. If yes, please explain and provide the name of the agency.

11. If you would prefer priority funding please provide you DUNS number below / DUNS number registered with SAM.gov

Applications submitted with DUNS numbers that are registered in SAM.gov may have the opportunity to receive priority funding. For more information on how to obtain a DUNS number and/or register with SAM.gov please see the SAM Quick Start Guide included with the Ag Tractor Replacement Program Application.

SECTION 2-CONTACT INFORMATION

PRIMARY CONTACT INFORMATION

1. First and Last Name

The first and last name of the person who will serve as the primary contact to the SJVAPCD through the full term of the agreement. All questions related to your project will go this individual.

2. Title

The job title of the primary contact.

3. Phone Number
The main phone number, including area code, for the primary contact.

4. Fax Number
   The fax number, including area code, for the primary contact.

5. Alternate Contact Number
   The alternate phone number, including area code, where the primary contact can be reached.

6. Email
   The email address of the primary contact.

**CONTRACT SIGNING AUTHORITY INFORMATION**

7. First and Last Name
   The first and last name of the person, designated by the organization that will enter into binding agreement with the SJVAPCD, to sign on the organization’s behalf.

8. Title
   The job title of the person designated to sign on the organization’s behalf.

9. Phone Number
   The main phone number, including area code, for the primary contact.

10. Fax Number
    The fax number, including area code, for the primary contact.

11. Alternate Contact Number
    The alternate phone number, including area code, where the signing authority can be reached.

12. Email
    The email address of the signing authority.

**SECTION 3 – EXISTING EQUIPMENT ACTIVITY INFORMATION**

Note: The replacement of two or more old, like equipment with one new replacement equipment is eligible for funding. If more than one old equipment will be included in the application, a copy of Section 3 and Section 4 must be completed for each old equipment.

1. - 3. Equipment Address
   The physical location (street address, city, and zip code) where the equipment is domiciled.

4. Applicant Designated Fleet Number for Equipment
   If applicable, the number designated to the equipment by the applicant.

5. County of Operation
   Check in which county or counties the equipment operates.

6. Equipment Type
Indicate the type of the equipment: agricultural equipment, wheel loader, baler, forklift, combine, etc.

7. **Annual Operation**
   The equipment’s annual operation in hours. If the project is selected for funding, you may be required to submit documentation as specified on pages 5 and 6 of this document.

8. **Percentage Use in SJVAPCD**
   The percentage of annual operational hours within the SJVAPCD boundaries (see page 14).

9. **Percentage Use in California**
   The percentage of annual operational hours within California.

10. **Have you owned and operated the equipment in California for the previous two (2) years?**
    Check whether or not this equipment has been owned and operated for the previous two (2) years. If yes and if the project is selected for funding, you are required to submit documentation as specified on page 6 of this document. If no, the equipment is ineligible for funding.

11. **Is this equipment operational?**
    Check whether or not the equipment is currently operational. If yes and if the project is selected for funding, you are required to submit documentation as specified on pages 6 and 7 of this document. Non-operational equipment are ineligible for funding. If no, the equipment is ineligible for funding. The equipment must be operational at the time of inspection.

**SECTION 4 – EXISTING/Old EQUIPMENT INFORMATION**

1. - 2. **Equipment Make and Model**
   Provide the make and model of the equipment. For example, Ford (manufacturer) FC215M (model).

3. **Equipment Model Year**
   The OEM model year in which the equipment chassis was manufactured.

4. **Equipment Identification Number**
   The Vehicle Identification Number (VIN) or Product Identification Number (PIN) listed on the equipment.

5. - 6. **Engine Make and Model**
   Provide the make and model of the existing engine. For example, Cummins (make) 6BTA5.9C (model).

7. **Engine Model Year**
   The year the engine model was manufactured.

8. **Advertised Horsepower Rating**
   The advertised horsepower of the engine.

9. **Engine Serial Number**
The serial number listed on the engine.

10. US EPA Engine Family Name
The engine family name assigned by EPA (if available). This information would typically be listed on the engine date plate or can be made available through your engine dealer. You may also visit ARB’s website at http://www.arb.ca.gov/msprog/offroad/cert/cert.php to obtain the information. If this information is not available, write “N/A”.

11. Engine Tier
Check the appropriate tier designation of the engine. Only Uncontrolled (Tier 0), Tier 1, and Tier 2 engines are eligible for funding.

12. Fuel Type
Check the appropriate fuel type that is currently being used in the equipment. Gasoline or propane powered equipment are ineligible for funding.

SECTION 5 – NEW REPLACEMENT EQUIPMENT INFORMATION

1. - 2. Equipment Make and Model
Provide the make and model of the new equipment

3. Equipment Model Year
The year the equipment model was manufactured.

4. - 5. Engine Make and Model
Provide the make and model of the engine in the new equipment.

6. Engine Model Year
The year the engine model was manufactured

7. Fuel Type
Indicate the fuel type that will be used in the new equipment.

8. Advertised Horsepower Rating
The advertised horsepower rating of the new engine.

9. US EPA Engine Family Name
The engine family name assigned by EPA. This information would typically be listed on the engine date plate or can be made available through your engine dealer. You may also visit ARB’s website at http://www.arb.ca.gov/msprog/offroad/cert/cert.php to obtain the information.

10. Engine Tier
Check the tier level of the new engine. Must have a current model year emissions engine or best available technology.

11. Total Cost of New Equipment
The total cost of the new equipment per dealer’s quote.
12. Tax Rate
Provide the county tax rate, as a percentage, for the new equipment per dealer’s quote.

**SECTION 6 – NEW REPLACEMENT EQUIPMENT DEALER INFORMATION**

1. Dealership Name
   The name of the business where you will be purchasing the new replacement equipment associated with this application.

2. - 5. Address
   The physical address where the dealer is located, including: number and street name, city, state, and zip code.

6. Contact Name
   The first and last name of the person at the dealership the SJVAPCD can contact regarding the purchase of the new equipment.

7. Phone Number
   The phone number, including area code, of the contact person.

8. Fax Number
   The fax number, including area code, of the contact person.

9. Email
   The email address of the contact person.

**THIRD PARTY INFORMATION**

⚠️ This section must be completed if any part of the application was filled out on your behalf by a third party.
APPLICATION PROCESS: STEP-BY-STEP FLOW CHART

The following is a step-by-step diagram of the entire application process, up to when a contract is awarded to the applicant. If you have any questions about the process, please feel free to contact program staff at (559) 230-5800.

Applicant Submits Application to SJVAPCD

SJVAPCD Staff Determines Complete/Incomplete/Ineligible

SJVAPCD Notifies Applicant

Incomplete

Complete

Ineligible

SJVAPCD notifies applicant. SJVAPCD staff assigned for on-site pre-monitoring of existing (old) equipment

SJVAPCD staff reviews pre-monitoring report and prepares project for contract

Applicant Receives Fully Executed Contract from SJVAPCD
- Applicant may purchase new replacement tractor

SJVAPCD receives Signed Agreement
- Agreement is routed for SJVAPCD management approval

Applicant Receives Draft Agreement
- Applicant reviews draft and has it signed by Contract Signing Authority
- Draft with original signature returned to SJVAPCD
