Project Description: Western Milling, LLC is proposing the installation of a new dry poultry litter (DPL). The proposed operation will include receiving and shipping operations, storage operations, mixing operations, grinding operations with spray bars, sterilizing auger with an existing permit exempt 1.75 MMBtu/hr natural gas-fired heater, and transfer conveyors. Western Milling is proposing a two step process consisting of poultry litter processing and feed additive processing. First the facility expects up to 1,000 tons per day of raw poultry litter will be received from local poultry ranches. Second the facility expects up to 500 tons/day of feed additives received and transferred to hoppers, bins, or tanks. DPL is stockpiled or loaded directly into bulk feed trucks or dairy wagons for shipment. All materials received will be processed within 30 days. Therefore composting is not expected to occur.

This is to advise that the San Joaquin Valley Unified Air Pollution Control District, acting as a Lead Agency or Responsible Agency has approved the above described project and has made the following determinations regarding the above described project:
