NOTICE IS HEREBY GIVEN that the San Joaquin Valley Air Pollution Control District solicits public comment on the proposed modification of E & J Gallo Winery for its winery located at 18000 W. River Road in Livingston, California. The proposed ATC authorizes the modification of one 90.0 MMBtu/hr natural gas fired boiler to change the alternate monitoring requirements from weekly readings of the flue gas recirculation (FGR) system valve settings to monthly readings of the exhaust stack NO<sub>x</sub> and CO emissions with a portable analyzer.

The District's analysis of the legal and factual basis for this proposed action, project #1102811, is available for public inspection at [http://www.valleyair.org/notices/public\\_notices\\_idx.htm](http://www.valleyair.org/notices/public_notices_idx.htm) and the District office at the address below. There are no emission changes associated with this proposed action. This will be the public's only opportunity to comment on the specific conditions of the modification. If requested by the public, the District will hold a public hearing regarding issuance of this modification. For additional information, please contact Mr. Jim Swaney, Permit Services Manager, at (559) 230-5900.
