**NOTICE OF FINAL ACTION  
FOR THE ISSUANCE OF AUTHORITY  
TO CONSTRUCT PERMITS**

NOTICE IS HEREBY GIVEN that the Air Pollution Control Officer has issued Authority to Construct permits to Vintage Production California, LLC for 5 new 85 MMBtu/hr steam generators , at the heavy oil production stationary source in the Kern County fields.

All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in revision of the PM10 source test requirement to allow results on an existing identical unit to serve as representative of the new units, limitation of the location to only quarter section, township, and range, and not areas within quarter sections, and clarification of the wording of the Best Performance Standard (BPS) condition. Please note that the comments and District response to the comments are included in the Attachment.. These changes were minor and did not trigger additional public notification requirements, nor did they have any impact upon the Best Available Control Technology determination or on the amount of offsets required for project approval.
