

**NOTICE OF PRELIMINARY DECISION  
FOR THE PROPOSED SIGNIFICANT MODIFICATION OF  
FEDERALLY MANDATED OPERATING PERMIT**

NOTICE IS HEREBY GIVEN that the San Joaquin Valley Air Pollution Control District solicits public comment on the proposed modification of the Federally Mandated Operating Permit to The Wine Group, Inc. for its wine production facility, 17000 E Highway 120, Ripon, California. The facility proposes to establish a specific limiting condition (SLC) that limits annual wine fermentation and storage emissions from all wine tanks at their facility to the Pre-Project Potential to Emit of the pre-project fermentation and storage capacities of the facility. In addition, the facility is re-rating their current 25 MMBtu/hr boiler to 17.5 MMBtu/hr for District Rule 4320 compliance.

The District's analysis of the legal and factual basis for this proposed action, project #N-1103645, is available for public inspection at [http://www.valleyair.org/notices/public\\_notices\\_idx.htm](http://www.valleyair.org/notices/public_notices_idx.htm) and the District office at the address below. This will be the public's only opportunity to comment on the specific conditions of the modification. If requested by the public, the District will hold a public hearing regarding issuance of this modification. For additional information, please contact Mr. Jim Swaney, Permit Services Manager, at (559) 230-5900. Written comments on the proposed initial permit must be submitted within 30 days of the publication date of this notice to DAVID WARNER, DIRECTOR OF PERMIT SERVICES, SAN JOAQUIN VALLEY AIR POLLUTION CONTROL DISTRICT, 1990 E. GETTYSBURG AVE, FRESNO, CALIFORNIA 93726-0244.
