**NOTICE OF PRELIMINARY DECISION  
FOR THE ISSUANCE OF AUTHORITY TO  
CONSTRUCT AND PROPOSED SIGNIFICANT  
MODIFICATION OF FEDERALLY MANDATED  
OPERATING PERMIT**

NOTICE IS HEREBY GIVEN that the San Joaquin Valley Air Pollution Control District solicits public comment on the proposed issuance of Authority to Construct (ATC) to Pacific Gas and Electric Company for its natural gas compressor station located at 34453 Plymouth Avenue in Avenal, California. This ATC authorizes the modification of one 791 bhp natural gas fired emergency standby internal combustion (IC) engine to remove its emergency standby status, allow operation up to 200 hours per year during any situation, and replace the non-selective catalytic reduction (NSCR) system with a new NSCR system.

The District's analysis of the legal and factual basis for this proposed action, project #1102936, is available for public inspection at [http://www.valleyair.org/notices/public\\_notices\\_idx.htm](http://www.valleyair.org/notices/public_notices_idx.htm) and the District office at the address below. This will be the public's only opportunity to comment on the specific conditions of the modification. If requested by the public, the District will hold a public hearing regarding issuance of this modification. For additional information, please contact Mr. Jim Swaney, Permit Services Manager, at (559) 230-5900. Written comments on the proposed initial permit must be submitted within 30 days of the publication date of this notice to DAVID WARNER, DIRECTOR OF PERMIT SERVICES, SAN JOAQUIN VALLEY AIR POLLUTION CONTROL DISTRICT, 1990 E. GETTYSBURG AVE, FRESNO, CA 93726-0244.
