

**PUBLIC NOTICE OF INTENT TO ADOPT
MITIGATED NEGATIVE DECLARATION**

September 8, 2011

Notice is hereby given that the San Joaquin Valley Unified Air Pollution Control District (District) proposes to adopt an Initial Study and Mitigated Negative Declaration for the following project:

PROJECT TITLE, LOCATION, AND DESCRIPTION

Project Title: E & J Gallo –Conversion of Seven Existing Tanks (Non-Wine Service) to Red/White Wine Fermentation Tanks

Project Location: 18000 West River Road, Livingston, California

Description of Project: E & J Gallo Winery has proposed the conversion of seven existing grape juice storage tanks (non-wine service) to red and white wine fermentation tanks. Conversion of existing wine storage tanks to a fermentation tank is a change in use of the tanks and does not involve any construction or alteration of the existing tanks. Fermentation of grapes results in increased air emissions and is subject to District permit requirements.

AVAILABILITY OF INITIAL STUDY AND DRAFT MITIGATED NEGATIVE DECLARATION:

The Draft Mitigated Negative Declaration demonstrates that with implementation of identified mitigation measures, project design elements and District permit conditions, the environmental impacts are less than significant. The reasons to support such a finding are documented in the Initial Study and Draft Mitigated Negative Declaration prepared by the District. Copies of the Initial Study and Draft Mitigated Negative Declaration and all documents referenced therein may be reviewed at the following location:
