

**REVISED NOTICE OF PRELIMINARY DECISION  
FOR THE PROPOSED ISSUANCE OF  
AN AUTHORITY TO CONSTRUCT**

NOTICE IS HEREBY GIVEN that the San Joaquin Valley Unified Air Pollution Control District solicits public comment on the proposed issuance of Authority to Construct to Chemical Waste Management, Inc for the increase of the useful life of hazardous waste landfill B-18, at 35251 Old Skyline Road in Kettleman City, CA.

Please note that this is a REVISED NOTICE. The Air District has determined that the emission increases associated with this project are minimal, and no public hearing or noticing process is required under applicable regulations. The Air District originally intended to join the Department of Toxic Substance Control ("DTSC") in their public hearing process for this project. Unfortunately, although the Air District remains willing to join in the DTSC's public hearing process, the DTSC has reversed its position on this, and has asked the Air District NOT to have a formal role in its hearings. Nevertheless, in order to take the public's interest into account, the District will participate in the DTSC's July 31 and August 1 meetings, and will attend the August 27 meeting, but merely as an observer, to document air-related comments, and to respond to those comments in the Air District's final decision. The Air District will also continue to accept written comments as noted below.

The analysis of the regulatory basis for this proposed action, Project #C-1083923, is available for public inspection at [http://www.valleyair.org/notices/public\\_notices\\_idx.htm](http://www.valleyair.org/notices/public_notices_idx.htm) and at any District office. For additional information, please contact the District at (559) 230-6000. Written comments on this project must be submitted by September 4, 2013 to **DAVID WARNER, DIRECTOR OF PERMIT SERVICES, SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT, 1990 EAST GETTYSBURG AVENUE, FRESNO, CA 93726.**
