Newspaper notice for publication in Bakersfield Californian and for posting on
valleyair.org

**NOTICE OF FINAL DECISION
FOR THE ISSUANCE OF AUTHORITY TO CONSTRUCT AND
THE PROPOSED SIGNIFICANT MODIFICATION OF FEDERALLY
MANDATED OPERATING PERMIT**

NOTICE IS HEREBY GIVEN that the Air Pollution Control Officer has issued the Authority to Construct permits to E&B Natural Resources Management for two (2) 85 MMBtu/hr natural gas-fired steam generators, at Section 5, T28S, R27E within the heavy oil production stationary source in the central Kern County fields.

All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in a minor change to the engineering evaluation. A summary of the comments and District response to the comments are included as an attachment to the revised engineering evaluation which is enclosed. These changes were minor and did not trigger additional public notification requirements, nor did they have any impact upon the Best Available Control Technology determination or on the amount of offsets required for project approval.

The District's analysis of the legal and factual basis for this proposed action , project #1130129, is available for public inspection at http://www.valleyair.org/notices/public_notices_idx.htm, the SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT, 34946 FLYOVER COURT, BAKERSFIELD, CA 93308, and at any other District office. For additional information, please contact the District at (661) 392-5500.
