

Newspaper notice for publication in Bakersfield Californian and for posting on valleyair.org

**NOTICE OF FINAL DECISION  
FOR THE ISSUANCE OF AUTHORITY TO CONSTRUCT AND  
THE PROPOSED SIGNIFICANT MODIFICATION OF FEDERALLY  
MANDATED OPERATING PERMIT**

NOTICE IS HEREBY GIVEN that the San Joaquin Valley Air Pollution Control District has made its final decision to issue Authorities to Construct to Aera Energy, LLC (dba Midway Sunset Cogeneration Co.) at Section 17, Township 31S, Range 22E, California. Midway Sunset Cogeneration Co. (MSCC) is proposing to allow the gas turbine engines to operate as peaking units. MSCC is proposing to bypass the selective catalytic reduction system when the turbines are operated as peaking units by replacing the combustor cans with Ultra Dry Low-NOx (DLN1+ Turndown Enhance) cans that are capable of achieving the 5 ppm-NOx requirement of Rule 4703 without SCR.

No comments were received following the District's preliminary decision on this project.

The District's analysis of the legal and factual basis for this proposed action, project #S-1133758, is available for public inspection at [http://www.valleyair.org/notices/public\\_notices\\_idx.htm](http://www.valleyair.org/notices/public_notices_idx.htm), the SAN JOAQUIN VALLEY AIR POLLUTION CONTROL DISTRICT, 34946 FLYOVER COURT, BAKERSFIELD, CA 93308, and at any other District office. For additional information, please contact the District at .
