Facility Number: S-1131
Project Number: S-1120775

Dear Mr. Donchin:

The Air Pollution Control Officer has issued Emission Reduction Credits (ERCs) to Chevron USA, Inc. for emission reductions generated by the shut down and removal of four Solar gas turbines (S-1131-970, '-973, '-1073, and '-974), at the Kern River oilfield. The quantity of ERCs to be issued is 70,788 metric tons of CO₂e per year.

Enclosed are the ERC Certificates and a copy of the notice of final action to be published approximately three days from the date of this letter.

Notice of the District's preliminary decision to issue the ERC Certificates was published on December 19, 2013. The District's analysis of the proposal was also sent to CARB and US EPA Region IX on December 16, 2013. No comments were received following the District's preliminary decision on this project.

Thank you for your cooperation in this matter. If you have any questions, please contact Mr. Leonard Scandura at (661) 392-5500.

Sincerely,

David Warner
