

**NOTICE OF FINAL ACTION  
FOR THE ISSUANCE OF  
EMISSION REDUCTION CREDITS**

NOTICE IS HEREBY GIVEN that the Air Pollution Control Officer has issued Emission Reduction Credits (ERCs) to Occidental of Elk Hills, Inc. for emission reduction generated by the shutdown of the 35R gas plant and three IC engines driving gas compressors, at Sections 26 and 35, Township 30 South, Range 23 East. The quantity of ERCs to be issued is 63,197 lb-NOx/yr, 57 lb-SOx/yr, 3,994 lb-PM10/yr, 69,454 lb-CO/yr, and 49,531 lb-VOC/yr.

All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in a correction to the amount of NOx ERC received for the 2nd quarter. An error was made transposing historical actual emissions from the data spreadsheets to the summary tables within the evaluation. Only 2nd quarter NOx was affected. The corrected value is reflected in the final ERC banking certificate being issued and the annual amount of NOx credits listed above. These changes were minor and did not affect the basis for issuance of the above referenced ERCs.

The application review for Project #S-1133368 is available for public inspection at [http://www.valleyair.org/notices/public\\_notices\\_idx.htm](http://www.valleyair.org/notices/public_notices_idx.htm), the SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT, 34946 FLYOVER COURT, BAKERSFIELD, CA 93308, and at any other District office. For additional information, please contact the District at (661) 392-5500.
