**NOTICE OF FINAL DECISION  
FOR THE ISSUANCE OF AUTHORITY TO CONSTRUCT AND  
THE PROPOSED SIGNIFICANT MODIFICATION OF FEDERALLY  
MANDATED OPERATING PERMIT**

NOTICE IS HEREBY GIVEN that the Air Pollution Control Officer has issued the Authority to Construct permits to Ingredion Incorporated for the project involving modifications to the existing boiler permit N-238-41 to correct heat input rating and establish daily and annual heat input limits, and installation of a new 28.8 MMBtu/hr natural gas-fired boiler, at 1021 Industrial Drive, Stockton, California.

All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in removal of the daily combined VOC limit, as it was found to be unnecessary. These changes were minor and did not trigger additional public notification requirements, nor did they have any impact upon the Best Available Control Technology determination or on the amount of offsets required for project approval.

The District's analysis of the legal and factual basis for this proposed action, project #1141447, is available for public inspection at [http://www.valleyair.org/notices/public\\_notices\\_idx.htm](http://www.valleyair.org/notices/public_notices_idx.htm), the SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT, 4800 ENTERPRISE WAY, MODESTO, CA 95356, and at any other District office. For additional information, please contact the District at (209) 557-6400.
