

Fresno Bee

Newspaper notice for publication in Fresno Bee and for posting on valleyair.org

---

**NOTICE OF FINAL ACTION  
FOR THE ISSUANCE OF  
AUTHORITY TO CONSTRUCT PERMITS**

NOTICE IS HEREBY GIVEN that the Air Pollution Control Officer has issued the Authority to Construct permits to Chevron USA Inc for replacement of tanks, authorization of an existing loading rack, and installation of a flare at the 7F Oil Cleaning Plant at Chevron's light oil production stationary source in Fresno County.

All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in the deletion of various permit conditions. These changes were minor and did not trigger additional public notification requirements, nor did they have any impact upon the Best Available Control Technology determination or on the amount of offsets required for project approval.

The application review for Project #1141400 is available for public inspection at [http://www.valleyair.org/notices/public\\_notices\\_idx.htm](http://www.valleyair.org/notices/public_notices_idx.htm), the SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT, 34946 FLYOVER COURT, BAKERSFIELD, CA 93308, and at any other District office. For additional information, please contact the District at (661) 392-5500.
