

Modesto Bee

Newspaper notice for publication in Modesto Bee and for posting on valleyair.org

**NOTICE OF FINAL ACTION
FOR THE ISSUANCE OF
AUTHORITY TO CONSTRUCT PERMITS**

NOTICE IS HEREBY GIVEN that the Air Pollution Control Officer has issued the Authority to Construct permits to Valley Milk, LLC for the installation of a new milk processing plant, at 4407 West Main Street in Turlock, California.

All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in extending the initial source testing period from 60 days to 90 days for permit units N-9149-1, N-9149-2, and N-9149-3. These changes were minor and did not trigger additional public notification requirements, nor did they have any impact upon the Best Available Control Technology determination or on the amount of offsets required for project approval.

The application review for Project #1151582 is available for public inspection at http://www.valleyair.org/notices/public_notices_idx.htm, the SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT, 4800 ENTERPRISE WAY, MODESTO, CA 95356, and at any other District office. For additional information, please contact the District at (209) 557-6400.
