RE: Notice of Final Action – Emission Reduction Credits
Facility Number: S-883
Project Number: S-1154416

Dear Mr. Gross:

The Air Pollution Control Officer has issued Emission Reduction Credits (ERCs) to Rio Bravo Poso for emission reduction generated by shutdown of a solid fuel-fired cogeneration unit, at 16608 Porterville Highway, Bakersfield. The quantity of ERCs to be issued is 171,046 lb-NOx/yr, 58,491 lb-SOx/yr, 10,252 lb-PM10/yr, 138,984 lb-CO/yr, and 1,209 lb-VOC/yr.

Enclosed are copies of the ERC Certificates and a copy of the notice of final action to be published approximately three days from the date of this letter.

Notice of the District's preliminary decision to issue the ERC Certificates was published on November 12, 2015. The District's analysis of the proposal was also sent to CARB and US EPA Region IX on November 9, 2015. All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in a change in the quantity of ERCs banked for NOx after correction of a calculation error. These changes were minor and did not affect the basis for issuance of the above referenced ERCs.
