

**JUL 3 1 2017**

Mr. Clyde H. Carter  
Snow Cleaners Inc.  
P. O. Box 1849  
Stockton, CA 95201-1849

**Re: Notice of Preliminary Decision – Title V Permit Renewal  
District Facility # N-3076  
Project # N-1162422**

Dear Mr. Carter:

Enclosed for your review and comment is the District's analysis of the application to renew the Federally Mandated Operating Permit for Snow Cleaners Inc. at 38 West Sonora Street, Stockton, California.

The notice of preliminary decision for this project will be published approximately three days from the date of this letter. After addressing all comments made during the 30-day public notice and the 45-day EPA comment periods, the District intends to issue the renewed Federally Mandated Operating Permit. Please submit your written comments on this project within the 30-day public comment period, as specified in the enclosed public notice.

Thank you for your cooperation in this matter. If you have any questions, please contact Mr. Nick Peirce, Permit Services Manager, at (209) 557-6400.

Sincerely,

Arnaud Marjollet  
Director of Permit Services

**Project # :** N-1162422  
**Deemed Complete:** August 01, 2016

---

**I. PROPOSAL**

Snow Cleaners was issued a Title V permit on Dec 18, 2012. As required by District Rule 2520, the applicant is requesting a permit renewal. The existing Title V permit shall be reviewed and modified to reflect all applicable District and federal rules updated, removed, or added since the issuance of the initial Title V permit.

The purpose of this evaluation is to provide the legal and factual basis for all updated applicable requirements and to determine if the facility will comply with these updated requirements. It also specifically identifies all additions, deletions, and/or changes made to permit conditions or equipment descriptions.

**II. FACILITY LOCATION**

Snow Cleaners is located at 38 W Sonora Street, Stockton, CA.

### III. EQUIPMENT LISTING

A detailed facility printout listing all permitted equipment at the facility is included as Attachment C.

### IV. GENERAL PERMIT TEMPLATE USAGE

The applicant is requesting to use the following model general permit Templates:

#### A. Template SJV-UM-0-3 Facility Wide Umbrella

The applicant has requested to utilize template No. SJV-UM-0-3, Facility Wide Umbrella. Based on the information submitted in the Template Qualification Form, the applicant qualifies for the use of this template.

### V. SCOPE OF EPA AND PUBLIC REVIEW

Certain segments of the proposed Renewed Operating Permit are based on model general permit templates that have been previously subject to EPA and public review. The terms and conditions from the model general permit templates are included in the proposed permit and are not subject to further EPA and public review.

For permit applications utilizing model general permit templates, public and agency comments on the District's proposed actions are limited to the applicant's eligibility for model general permit template, applicable requirements not covered by the model general permit template, and the applicable procedural requirements for issuance of Title V Operating Permits.

- Conditions 1 through 40 of permit unit N-3076-0-2, including their underlying applicable requirements, originate from the model general permit template and are not subject to further EPA and Public review.

### VI. FEDERALLY ENFORCEABLE REQUIREMENTS

#### A. Rules Updated

- District Rule 2020, Exemptions  
(amended December 20, 2007 ⇒ amended December 18, 2014)
- District Rule 2201, New and Modified Stationary Source Review Rule  
(amended December 18, 2008 ⇒ amended February 18, 2016)

- 40 CFR Part 82, Subpart B, Serviceing of Motor Vehicle Air Conditioners (amended June 18, 2008 ⇒ amended June 25, 2013)
- 40 CFR Part 82, Subpart F, Recycling and Emission Reduction (amended June 18, 2008 ⇒ amended April 10, 2015)
- 40 CFR Part 64, Compliance Assurance Monitoring

#### **B. Rules Removed**

There are no applicable rules that were removed since the last Title V renewal.

#### **C. Rules Added**

- District Rule 2410, Prevention of Significant Deterioration (Adopted June 16, 2011)

#### **D. Rules Not Updated**

- District Rule 1080, Stack Monitoring (amended December 17, 1992)
- District Rule 1081, Source Sampling (amended December 17, 1992)
- District Rule 1100, Equipment Breakdown (amended December 17, 1992)
- District Rule 2010, Permits Required (amended December 17, 1992)
- District Rule 2031, Transfer of Permits (amended December 17, 1992)
- District Rule 2040, Applications (amended December 17, 1992)
- District Rule 2070, Standards for Granting Applications (amended December 17, 1992)
- District Rule 2080, Conditional Approval (amended December 17, 1992)
- District Rule 4101, Visible Emissions (amended February 17, 2005)
- District Rule 4201, Particulate Matter Concentration, (amended December 17, 1992)
- District Rule 4601, Architectural Coatings (amended December 17, 2009)
- District Rule 4661, Organic Solvents (Amended September 20, 2007)

- District Rule 4672, Petroleum Solvent Dry Cleaning Operations (Amended December 17, 1992)
- District Rule 8011, Fugitive Dust General Requirements (Amended August 19, 2004)
- District Rule 8021, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Construction, Demolition, Excavation, and Extraction Activities (Amended August 19, 2004)
- District Rule 8031, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Handling and Storage of Bulk Materials (Amended August 19, 2004)
- District Rule 8041, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Carryout and Trackout (Amended August 19, 2004)
- District Rule 8051, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Open Area (Amended August 19, 2004)
- District Rule 8061, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Paved and Unpaved Roads (Amended August 19, 2004)
- District Rule 8071, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Unpaved Vehicle/Equipment Areas (Amended September 16, 2004)
- 40 CFR Part 61, Subpart M, National Emission Standard for Asbestos (Amended July 20, 2004)
- 40 CFR Part 60, Subpart JJJ, Standards of Performance for Petroleum Dry Cleaners (Amended Oct 17, 2000)
- 40 CFR Part 63, Subpart TTTT, National Emission Standards for Hazardous Air Pollutants for Leather Finishing Operations (Amended Feb 7, 2005)

## VII. REQUIREMENTS NOT FEDERALLY ENFORCEABLE

For each Title V source, the District issues a single permit that contains the Federally Enforceable requirements, as well as the District-only requirements. The District-only requirements are not a part of the Title V Operating Permits. The

terms and conditions that are part of the facility's Title V permit are designated as "Federally Enforceable Through Title V Permit".

For this facility, the following are not federally enforceable and will not be discussed in further detail:

**A. Rules Added/Updated**

None

**B. Rules Not Updated**

District Rule 4102, Nuisance (as amended December 17, 1992)

**VIII. PERMIT REQUIREMENTS**

The purpose of this evaluation is to review changes to federally enforceable requirements; therefore, this compliance section will only address rules that have been amended or added since the issuance of the initial Title V permit or most recent renewal of the Title V permit.

**A. District Rule 2020 - Exemptions**

District Rule 2020 lists equipment which is specifically exempt from obtaining permits and specifies recordkeeping requirements to verify such exemptions. The amendments to this rule do not have any effect on current permit requirements and will therefore not be addressed in this evaluation.

**B. District Rule 2201 - New and Modified Stationary Source Review Rule (NSR)**

District Rule 2201 has been amended since this facility's initial Title V permit was issued. However, the requirements of this rule are only triggered at the time the source undergoes a modification. All applicable requirements from any NSR permit actions have already been incorporated into the current Title V permit.

**C. District Rule 2410 - Prevention of Significant Deterioration (PSD)**

District Rule 2410 has been newly adopted since this Title V permit was last renewed. However the requirements of this rule are only triggered at the time the source undergoes a modification. All applicable requirements from any PSD permit actions have already been incorporated into the current Title V permit.

**D. District Rule 2520 - Federally Mandated Operating Permits**

No changes to this Rule have occurred since issuance of the previous TV permit; however, greenhouse gas emissions will be addressed under Rule 2520 during this renewal.

Greenhouse Gas Discussion

There are no federally applicable Greenhouse Gas (GHG) requirements for this source. It should be noted that the Mandatory Greenhouse Gas Reporting rule (40 CFR Part 98) is not included in the definition of an applicable requirement within Title V (per 40 CFR 71.2). Therefore, there will be no further discussion of GHG in this evaluation.

**E. 40 CFR Part 82, Subpart B, Protection of Stratospheric Ozone, Servicing of Motor Vehicle Air Conditioners**

These are applicable requirements from Title VI of the CAA (Stratospheric Ozone) that apply to all sources in general. These requirements pertain to air conditioners, chillers and refrigerators located at a Title V source and to disposal of air conditioners or maintenance/recharging/disposal of motor vehicle air conditioners (MVAC).

Compliance with the requirements of this rule will be ensured with the listed permit conditions for the proposed permit in the table below:

Permit Number	Permit Condition Number
N-3076-0-2	28

**F. 40 CFR Part 82, Subpart F, Protection of Stratospheric Ozone, Recycling and Emissions Reduction**

These are applicable requirements from Title VI of the CAA (Stratospheric Ozone) that apply to all sources in general. These requirements pertain to air conditioners, chillers and refrigerators located at a Title V source and to disposal of air conditioners or maintenance/recharging/disposal of motor vehicle air conditioners (MVAC).

Compliance with the requirements of this rule will be ensured with the listed permit conditions for the proposed permit in the table below:

<b>Permit Number</b>	<b>Permit Condition Number</b>
N-3076-0-2	27

**F. 40 CFR Part 64 - Compliance Assurance Monitoring(CAM)**

40 CFR Part 64 requires Compliance Assurance Monitoring for units that meet the following three criteria:

- 1) the unit must have an emission limit for the pollutant;
- 2) the unit must have add-on controls for the pollutant; these are devices such as flue gas recirculation (FGR), baghouses, and catalytic oxidizers; and
- 3) the unit must have a pre-control potential to emit of greater than the major source thresholds.

<b>Pollutant</b>	<b>Major Source Threshold (lbs/yr)</b>
VOC	20,000
NOx	20,000
CO	200,000
PM2.5	140,000
PM10	140,000
SOx	140,000

This facility is a Major Source for VOC emissions. Thus, a CAM determination is required.

1. N-3076-1-4: LAVA TEX IOP MODEL 1L (MACHINE NO. 1) 100 LB CAPACITY PETROLEUM SOLVENT DRY CLEANING MACHINE AND TWO HOYT PETRO-MISER PET105 100 LB CAPACITY SOLVENT RECOVERY DRYERS.
2. N-3076-2-4: LAVA TEX IOP MODEL 2R (MACHINE NO. 2) 100 LB CAPACITY PETROLEUM SOLVENT DRY CLEANING MACHINE AND TWO HOYT PETRO-MISER PET105 100 LB CAPACITY SOLVENT RECOVERY DRYERS.
3. N-3076-3-4: LAVA TEX IOP MODEL 3L (MACHINE NO. 3) 100 LB CAPACITY PETROLEUM SOLVENT DRY CLEANING MACHINE AND TWO HOYT PETRO-MISER PET105 100 LB CAPACITY SOLVENT RECOVERY DRYERS.
4. N-3076-4-4: LAVA TEX IOP MODEL 4R (MACHINE NO. 4) 100 LB CAPACITY PETROLEUM SOLVENT DRY CLEANING MACHINE AND

TWO HOYT PETRO-MISER PET105 100 LB CAPACITY SOLVENT RECOVERY DRYERS.

5. N-3076-5-4: OMEGA MODEL CEHD-100-SL-3 CLOSED LOOP DRY-TO-DRY DRY-SOLV DRY CLEANING MACHINE WITH A REFRIGERATED VAPOR CONDENSER AND A CARBON ADSORBER.

The above permit units have emission limits and add-on controls for VOC. These units were evaluated under the previous TV initial permit project (N-1112166) and were determined to be subject to CAM for VOC. Since no changes were made to these emission units after the issuance of the initial TV permit, these units will remain subject to CAM for VOC. These units currently comply with CAM and the existing conditions will be retained.

6. N-3076-6-4: LEATHER GARMENTS RECONDITIONING AND DYEING OPERATION SERVED BY AN AIR FILTRATION MODEL BF-108 SPRAY BOOTH.

This operation emits only VOC and PM<sub>10</sub> emissions. However, the only control device utilized is a spray booth that only controls PM<sub>10</sub> emissions. Since there are no emission controls for VOC, CAM is not triggered for VOC emissions. This permit does not contain a limit for PM<sub>10</sub> emissions; therefore, CAM is also not triggered for PM<sub>10</sub> emissions. In summary CAM is not triggered for this permit unit and no further discussion is required for this operation.

7. N-3076-7-4: SPOTTING BOARDS AND SPOTTING SINK FOR A DRY CLEANING OPERATION.

This permit unit does not utilize an add-on control device for any pollutant. Therefore, this permit unit is not subject to CAM requirements for any pollutant and no further discussion is required for this operation.

CAM Summary:

Compliance with the requirements of 40 CFR Part 64 (CAM) will be ensured with the listed permit conditions for the permits listed in the table below:

<b>Permit Number</b>	<b>Permit Condition Number</b>
N-3076-1-4	14., 15., 16., 17., & 18.
N-3076-2-4	14., 15., 16., 17., & 18.
N-3076-3-4	14., 15., 16., 17., & 18.
N-3076-4-4	14., 15., 16., 17., & 18.
N-3076-5-4	15., 16., 17., 18., 19., 20., & 21.

## **IX. PERMIT SHIELD**

A permit shield legally protects a facility from enforcement of the shielded regulations when a source is in compliance with the terms and conditions of the Title V permit. Compliance with the terms and conditions of the Operating Permit is considered compliance with all applicable requirements upon which those conditions are based, including those that have been subsumed.

### **A. Requirements Addressed by Model General Permit Templates**

#### **1. Model General Permit Template SJV-UM-0-3**

By submitting Model General Permit Template SJV-UM-0-3 qualification form, the applicant has requested that a permit shield be granted for all the applicable requirements identified by the template. Therefore, the permit shields as granted in Model General Permit Template is included as conditions 39 and 40 of the facility-wide requirements (N-3076-0-2).

### **B. Requirements not Addressed by Model General Permit Templates**

The applicant is not requesting a permit shield for any additional permit requirement.

### **C. Obsolete Permit Shields From Existing Permit Requirements**

There is no obsolete permit shield from existing permit requirements.

## **X. CALIFORNIA ENVIRONMENTAL QUALITY ACT**

The purpose of the Title V permit renewal is to update the permit to ensure that any changes to regulations since the issuance of the initial Title V permit or most recent renewal of the Title V permit are incorporated as permit requirements.

Per the California Environmental Quality Act (CEQA) Statute §21080.24, and CEQA Guidelines §15281, the issuance, modification, amendment, or renewal of any permit by an air pollution control district or air quality management district pursuant to Title V is exempt from CEQA, unless the issuance, modification, amendment, or renewal authorizes a physical or operational change to a source or facility. There will be no physical or operational change to the source or facility nor will the Title V permit renewal authorize a physical or operational change to the source or facility. Therefore, this project, a Title V permit renewal, is subject to a ministerial action that is exempt from CEQA.

## **XI. PERMIT CONDITIONS**

See Attachment A - Draft Renewed Title V Operating Permit.

# ATTACHMENT A

Draft Renewed Title V Operating Permit

---

# San Joaquin Valley Air Pollution Control District

FACILITY: N-3076-0-2

EXPIRATION DATE: 03/31/2017

## FACILITY-WIDE REQUIREMENTS

1. The owner or operator shall notify the District of any breakdown condition as soon as reasonably possible, but no later than one hour after its detection, unless the owner or operator demonstrates to the District's satisfaction that the longer reporting period was necessary. [District Rule 1100, 6.1; County Rules 110 (san Joaquin)] Federally Enforceable Through Title V Permit
2. The District shall be notified in writing within ten days following the correction of any breakdown condition. The breakdown notification shall include a description of the equipment malfunction or failure, the date and cause of the initial failure, the estimated emissions in excess of those allowed, and the methods utilized to restore normal operations. [District Rule 1100, 7.0; County Rules 110 (San Joaquin)] Federally Enforceable Through Title V Permit
3. {4364} The owner or operator of any stationary source operation that emits more than 25 tons per year of nitrogen oxides or reactive organic compounds, shall provide the District annually with a written statement in such form and at such time as the District prescribes, showing actual emissions of nitrogen oxides and reactive organic compounds from that source. [District Rule 1160, 5.0] Federally Enforceable Through Title V Permit
4. {4365} Any person building, altering or replacing any operation, article, machine, equipment, or other contrivance, the use of which may cause the issuance of air contaminants or the use of which may eliminate, reduce, or control the issuance of air contaminants, shall first obtain an Authority to Construct (ATC) from the District unless exempted by District Rule 2020 (12/20/07). [District Rule 2010, 3.0 and 4.0; and 2020] Federally Enforceable Through Title V Permit
5. {4366} The permittee must comply with all conditions of the permit including permit revisions originated by the District. All terms and conditions of a permit that are required pursuant to the Clean Air Act (CAA), including provisions to limit potential to emit, are enforceable by the EPA and Citizens under the CAA. Any permit noncompliance constitutes a violation of the CAA and the District Rules and Regulations, and is grounds for enforcement action, for permit termination, revocation, reopening and reissuance, or modification; or for denial of a permit renewal application. [District Rules 2070, 7.0; 2080; and 2520, 9.8.1 and 9.13.1] Federally Enforceable Through Title V Permit
6. {4367} A Permit to Operate or an Authority to Construct shall not be transferred unless a new application is filed with and approved by the District. [District Rule 2031] Federally Enforceable Through Title V Permit
7. {4368} Every application for a permit required under Rule 2010 (12/17/92) shall be filed in a manner and form prescribed by the District. [District Rule 2040] Federally Enforceable Through Title V Permit
8. {4369} The operator shall maintain records of required monitoring that include: 1) the date, place, and time of sampling or measurement; 2) the date(s) analyses were performed; 3) the company or entity that performed the analysis; 4) the analytical techniques or methods used; 5) the results of such analysis; and 6) the operating conditions at the time of sampling or measurement. [District Rule 2520, 9.4.1] Federally Enforceable Through Title V Permit
9. {4370} The operator shall retain records of all required monitoring data and support information for a period of at least 5 years from the date of the monitoring sample, measurement, or report. Support information includes copies of all reports required by the permit and, for continuous monitoring instrumentation, all calibration and maintenance records and all original strip-chart recordings. [District Rule 2520, 9.4.2] Federally Enforceable Through Title V Permit

FACILITY-WIDE REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate. Any amendments to these Facility-wide Requirements that affect specific Permit Units may constitute modification of those Permit Units.

Facility Name: SNOW CLEANERS INC  
Location: 38 W SONORA ST, STOCKTON, CA 95205  
N-3076-0-2 Jul 19 2017 8:02AM - GILL

10. {4371} The operator shall submit reports of any required monitoring at least every six months unless a different frequency is required by an applicable requirement. All instances of deviations from permit requirements must be clearly identified in such reports. [District Rule 2520, 9.5.1] Federally Enforceable Through Title V Permit
11. {4372} Deviations from permit conditions must be promptly reported, including deviations attributable to upset conditions, as defined in the permit. For the purpose of this condition, promptly means as soon as reasonably possible, but no later than 10 days after detection. The report shall include the probable cause of such deviations, and any corrective actions or preventive measures taken. All required reports must be certified by a responsible official consistent with section 10.0 of District Rule 2520 (6/21/01). [District Rules 2520, 9.5.2 and 1100, 7.0] Federally Enforceable Through Title V Permit
12. {4373} If for any reason a permit requirement or condition is being challenged for its constitutionality or validity by a court of competent jurisdiction, the outcome of such challenge shall not affect or invalidate the remainder of the conditions or requirements in that permit. [District Rule 2520, 9.7] Federally Enforceable Through Title V Permit
13. {4374} It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of the permit. [District Rule 2520, 9.8.2] Federally Enforceable Through Title V Permit
14. {4375} The permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a notification of planned changes or anticipated noncompliance does not stay any permit condition. [District Rule 2520, 9.8.3] Federally Enforceable Through Title V Permit
15. {4376} The permit does not convey any property rights of any sort, or any exclusive privilege. [District Rule 2520, 9.8.4] Federally Enforceable Through Title V Permit
16. {4377} The Permittee shall furnish to the District, within a reasonable time, any information that the District may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the District copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to EPA along with a claim of confidentiality. [District Rule 2520, 9.8.5] Federally Enforceable Through Title V Permit
17. {4378} The permittee shall pay annual permit fees and other applicable fees as prescribed in Regulation III of the District Rules and Regulations. [District Rule 2520, 9.9] Federally Enforceable Through Title V Permit
18. {4379} Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to enter the permittee's premises where a permitted source is located or emissions related activity is conducted, or where records must be kept under condition of the permit. [District Rule 2520, 9.13.2.1] Federally Enforceable Through Title V Permit
19. {4380} Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit. [District Rule 2520, 9.13.2.2] Federally Enforceable Through Title V Permit
20. {4381} Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to inspect at reasonable times any facilities, equipment, practices, or operations regulated or required under the permit. [District Rule 2520, 9.13.2.3] Federally Enforceable Through Title V Permit
21. {4382} Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to sample or monitor, at reasonable times, substances or parameters for the purpose of assuring compliance with the permit or applicable requirements. [District Rule 2520, 9.13.2.4] Federally Enforceable Through Title V Permit
22. No air contaminants shall be discharged into the atmosphere for a period or periods aggregating more than 3 minutes in any one hour which is as dark or darker than Ringelmann #1 or equivalent to 20% opacity and greater, unless specifically exempted by District Rule 4101 (02/17/05). If the equipment or operation is subject to a more stringent visible emission standard as prescribed in a permit condition, the more stringent visible emission limit shall supersede this condition. [District Rule 4101 and San Joaquin County Rule 401] Federally Enforceable Through Title V Permit

FACILITY-WIDE REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate.

23. {4384} No person shall manufacture, blend, repackage, supply, sell, solicit or apply any architectural coating with a VOC content in excess of the corresponding limit specified in Table of Standards 1 effective until 12/30/10 or Table of Standards 2 effective on and after 1/1/11 of District Rule 4601 (12/17/09) for use or sale within the District. [District Rule 4601, 5.1] Federally Enforceable Through Title V Permit
24. {4385} All VOC-containing materials subject to Rule 4601 (12/17/09) shall be stored in closed containers when not in use. [District Rule 4601, 5.4] Federally Enforceable Through Title V Permit
25. {4386} The permittee shall comply with all the Labeling and Test Methods requirements outlined in Rule 4601 sections 6.1 and 6.3 (12/17/09). [District Rule 4601, 6.1 and 6.3] Federally Enforceable Through Title V Permit
26. {4387} With each report or document submitted under a permit requirement or a request for information by the District or EPA, the permittee shall include a certification of truth, accuracy, and completeness by a responsible official. [District Rule 2520, 9.13.1 and 10.0] Federally Enforceable Through Title V Permit
27. {4388} If the permittee performs maintenance on, or services, repairs, or disposes of appliances, the permittee shall comply with the standards for Recycling and Emissions Reduction pursuant to 40 CFR Part 82, Subpart F. [40 CFR 82 Subpart F] Federally Enforceable Through Title V Permit
28. {4389} If the permittee performs service on motor vehicles when this service involves the ozone-depleting refrigerant in the motor vehicle air conditioner (MVAC), the permittee shall comply with the standards for Servicing of Motor Vehicle Air Conditioners pursuant to all the applicable requirements as specified in 40 CFR Part 82, Subpart B. [40 CFR Part 82, Subpart B] Federally Enforceable Through Title V Permit
29. {4390} Disturbances of soil related to any construction, demolition, excavation, extraction, or other earthmoving activities shall comply with the requirements for fugitive dust control in District Rule 8021 unless specifically exempted under Section 4.0 of Rule 8021 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8021] Federally Enforceable Through Title V Permit
30. {4391} Outdoor handling, storage and transport of any bulk material which emits dust shall comply with the requirements of District Rule 8031, unless specifically exempted under Section 4.0 of Rule 8031 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8031] Federally Enforceable Through Title V Permit
31. {4392} An owner/operator shall prevent or cleanup any carryout or trackout in accordance with the requirements of District Rule 8041 Section 5.0, unless specifically exempted under Section 4.0 of Rule 8041 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8041] Federally Enforceable Through Title V Permit
32. {4393} Whenever open areas are disturbed, or vehicles are used in open areas, the facility shall comply with the requirements of Section 5.0 of District Rule 8051, unless specifically exempted under Section 4.0 of Rule 8051 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8051] Federally Enforceable Through Title V Permit
33. {4394} Any paved road or unpaved road shall comply with the requirements of District Rule 8061 unless specifically exempted under Section 4.0 of Rule 8061 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8061] Federally Enforceable Through Title V Permit
34. {4395} Any unpaved vehicle/equipment area that anticipates more than 50 Average annual daily Trips (AADT) shall comply with the requirements of Section 5.1.1 of District Rule 8071. Any unpaved vehicle/equipment area that anticipates more than 150 vehicle trips per day (VDT) shall comply with the requirements of Section 5.1.2 of District Rule 8071. On each day that 25 or more VDT with 3 or more axles will occur on an unpaved vehicle/equipment traffic area, the owner/operator shall comply with the requirements of Section 5.1.3 of District Rule 8071. On each day when a special event will result in 1,000 or more vehicles that will travel/park on an unpaved area, the owner/operator shall comply with the requirements of Section 5.1.4 of District Rule 8071. All sources shall comply with the requirements of Section 5.0 of District Rule 8071 unless specifically exempted under Section 4.0 of Rule 8071 (9/16/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8071] Federally Enforceable Through Title V Permit
35. {4396} Any owner or operator of a demolition or renovation activity, as defined in 40 CFR 61.141, shall comply with the applicable inspection, notification, removal, and disposal procedures for asbestos containing materials as specified in 40 CFR 61.145 (Standard for Demolition and Renovation). [40 CFR 61 Subpart M] Federally Enforceable Through Title V Permit

FACILITY-WIDE REQUIREMENTS CONTINUE ON NEXT PAGE  
These terms and conditions are part of the Facility-wide Permit to Operate.

36. {4397} The permittee shall submit certifications of compliance with the terms and standards contained in Title V permits, including emission limits, standards and work practices, to the District and the EPA annually (or more frequently as specified in an applicable requirement or as specified by the District). The certification shall include the identification of each permit term or condition, the compliance status, whether compliance was continuous or intermittent, the methods used for determining the compliance status, and any other facts required by the District to determine the compliance status of the source. [District Rule 2520, 9.16] Federally Enforceable Through Title V Permit
37. {4398} The permittee shall submit an application for Title V permit renewal to the District at least six months, but not greater than 18 months, prior to the permit expiration date. [District Rule 2520, 5.2] Federally Enforceable Through Title V Permit
38. {4399} When a term is not defined in a Title V permit condition, the definition in the rule cited as the origin and authority for the condition in a Title V permits shall apply. [District Rule 2520, 9.1.1] Federally Enforceable Through Title V Permit
39. Compliance with permit conditions in the Title V permit shall be deemed in compliance with the following outdated SIP requirements: Rule 401 (San Joaquin), Rule 110 (San Joaquin), and Rule 202 (San Joaquin). A permit shield is granted from these requirements. [District Rule 2520, 13.2] Federally Enforceable Through Title V Permit
40. {4401} Compliance with permit conditions in the Title V permit shall be deemed in compliance with the following applicable requirements: SJVUAPCD Rules 1100, sections 6.1 and 7.0 (12/17/92); 2010, sections 3.0 and 4.0 (12/17/92); 2031 (12/17/92); 2040 (12/17/92); 2070, section 7.0 (12/17/92); 2080 (12/17/92); 4101 (2/17/05); 4601 (12/17/09); 8021 (8/19/2004); 8031 (8/19/2004); 8041 (8/19/2004); 8051 (8/19/2004); 8061 (8/19/2004); and 8071 (9/16/2004). A permit shield is granted from these requirements. [District Rule 2520, 13.2] Federally Enforceable Through Title V Permit
41. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
42. On December 31, 2012, the initial Title V permit was issued. The reporting periods for the Report of Required Monitoring and the Compliance Certification Report are based upon this initial permit issuance date, unless alternative dates are approved by the District Compliance Division. These reports are due within 30 days after the end of the reporting period. [District Rule 2520] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

DRAFT

# San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-3076-1-4

EXPIRATION DATE: 03/31/2017

## EQUIPMENT DESCRIPTION:

LAVA TEX IOP MODEL 1L (MACHINE NO. 1) 100 LB CAPACITY PETROLEUM SOLVENT DRY CLEANING MACHINE AND TWO HOYT PETRO-MISER PET105 100 LB CAPACITY SOLVENT RECOVERY DRYERS.

## PERMIT UNIT REQUIREMENTS

1. The solvent dry cleaning operation shall comply with District Rule 4672 (Petroleum Solvent Dry Cleaning Operations). [District Rule 4672] Federally Enforceable Through Title V Permit
2. Equipment shall not be operated if solvent liquid and/or vapor is leaking from any portion of the equipment. [District Rule 4672] Federally Enforceable Through Title V Permit
3. Solvents shall be stored in closed containers, except where closed containers are prohibited by law, regulation or fire control authority. [District Rule 4672] Federally Enforceable Through Title V Permit
4. All washer lint traps, button traps, access doors and other parts of the equipment where the solvent may be exposed to the atmosphere shall be kept closed at all times except as required for proper operation or maintenance. [District Rule 4672] Federally Enforceable Through Title V Permit
5. All wastes from dry cleaning facilities subject to Department of Health Services regulation shall be stored, transported and disposed of in accordance with Department of Health Services regulations. [District Rule 4672] Federally Enforceable Through Title V Permit
6. The used filter material shall be put in a sealed container immediately after removal from the filter, unless the dry cleaning system is equipped with either cartridge filters containing paper or carbon or a combination thereof, or reduce the petroleum solvent content in all filtration wastes to one (1) kilogram or less per 100 kilograms dry weight of articles dry cleaned, before disposal, and exposure to the atmosphere. [District Rule 4672] Federally Enforceable Through Title V Permit
7. Used filter material containing paper or carbon or a combination thereof shall be fully drained in a sealed filter housing for at least 24 hours before being discarded, or 12 hours if the filter is dried in a dryer vented to an emission control device, or put in a sealed container immediately after removal from the filter. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
8. A clearly visible label specifying leak inspection and repair cycle information for petroleum solvent dryer shall be posted in accordance with Section 5.6 of District Rule 4672. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
9. Articles which have been cleaned shall be transferred to the dryers within five (5) minutes after they are received from the washer, or shall be stored in closed transfer carts. [District Rule 4672] Federally Enforceable Through Title V Permit
10. The solvent recovery dryers shall recover at least 90 percent of petroleum solvent by weight. [District Rules 2201 and 4672] Federally Enforceable Through Title V Permit
11. The flow rate of recovered solvent from the solvent recovery dryers at the termination of the recovery cycle shall not exceed 0.05 liters per minute. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit

PERMIT UNIT REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate.

12. VOC emissions shall not exceed 41.1 pounds in any one day. [District Rule 2201] Federally Enforceable Through Title V Permit
13. Facility-wide VOC emissions from this facility shall not exceed 61,550 pounds during any rolling 12-month period. [District Rule 2201] Federally Enforceable Through Title V Permit
14. Each vapor condenser serving the solvent recovery dryers shall be equipped with an operational temperature gauge to measure the exhaust gas temperature of the condenser. The gauge shall be maintained in good working condition at all times and shall be located in an easily accessible location. [40 CFR Part 64] Federally Enforceable Through Title V Permit
15. When the solvent recovery dryer is operating, the vapor condenser shall operate at a minimum exhaust gas temperature of 85 degrees Fahrenheit and a maximum exhaust gas temperature of 92 degrees Fahrenheit. During each day of operation, the permittee shall record the condenser exhaust gas temperature and compare the readings with the permitted range. Upon detecting any excursion from the permitted condenser exhaust gas temperature, the permittee shall investigate the excursion and take corrective action to minimize excessive emissions and prevent recurrence of the excursion as expeditiously as practicable. [40 CFR Part 64] Federally Enforceable Through Title V Permit
16. The permittee shall comply with the compliance assurance monitoring and maintenance requirements of 40 CFR Part 64.7. [40 CFR Part 64.7] Federally Enforceable Through Title V Permit
17. If the District or EPA determine that a Quality Improvement Plan is required under 40 CFR 64.7(d)(2), the permittee shall develop and implement the Quality Improvement Plan in accordance with 40 CFR Part 64.8. [40 CFR 64.8] Federally Enforceable Through Title V Permit
18. The permittee shall comply with all recordkeeping and reporting requirements of 40 CFR Part 64.9. [40 CFR Part 64.9] Federally Enforceable Through Title V Permit
19. Records shall be maintained of purchase and actual usage of petroleum solvent used, pre-washed weight of articles cleaned per load, and the amount of volatile organic compounds contained in the filtration waste material per 100 kilograms dry weight of articles dry cleaned. [District Rule 4672]
20. The permittee shall maintain records of the daily VOC emissions from this dry cleaning machine. [District Rule 2201] Federally Enforceable Through Title V Permit
21. The permittee shall maintain a record of the rolling 12-month summary of actual VOC emissions from all permitted operations. At a minimum, this record shall be updated on a monthly basis. [District Rule 2201] Federally Enforceable Through Title V Permit
22. All records shall be retained on-site for a minimum of five years and made available for District inspection upon request. [District Rules 2520 and 4672] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

OMEGA MODEL CEHD-100-SL-3 CLOSED-LOOP DRY-TO- DRY DRY SOLV DRY CLEANING MACHINE WITH A REFRIGERATED VAPOR CONDENSER AND A CARBON ADSORBER.

## PERMIT UNIT REQUIREMENTS

1. The solvent dry cleaning operation shall comply with District Rule 4672 (Petroleum Solvent Dry Cleaning Operations). [District Rule 4672] Federally Enforceable Through Title V Permit
2. Equipment shall not be operated if solvent liquid and/or vapor is leaking from any portion of the equipment. [District Rule 4672] Federally Enforceable Through Title V Permit
3. Solvents shall be stored in closed containers, except where closed containers are prohibited by law, regulation or fire control authority. [District Rule 4672] Federally Enforceable Through Title V Permit
4. All washer lint traps, button traps, access doors and other parts of the equipment where the solvent may be exposed to the atmosphere shall be kept closed at all times except as required for proper operation or maintenance. [District Rule 4672] Federally Enforceable Through Title V Permit
5. All wastes from dry cleaning facilities subject to Department of Health Services regulation shall be stored, transported and disposed of in accordance with Department of Health Services regulations. [District Rule 4672] Federally Enforceable Through Title V Permit
6. The used filter material shall be put in a sealed container immediately after removal from the filter, unless the dry cleaning system is equipped with either cartridge filters containing paper or carbon or a combination thereof; or reduce the petroleum solvent content in all filtration wastes to one (1) kilogram or less per 100 kilograms dry weight of articles dry cleaned, before disposal, and exposure to the atmosphere. [District Rule 4672] Federally Enforceable Through Title V Permit
7. Used filter material containing paper or carbon or a combination thereof shall be fully drained in a sealed filter housing for at least 24 hours before being discarded, or 12 hours if the filter is dried in a dryer vented to an emission control device, or put in a sealed container immediately after removal from the filter. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
8. A clearly visible label specifying leak inspection and repair information for petroleum solvent dryer shall be posted in accordance with Section 5.6 of District Rule 4672. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
9. Articles which have been cleaned shall be transferred to the dryers within five (5) minutes after they are received from the washer, or shall be stored in closed transfer carts. [District Rule 4672] Federally Enforceable Through Title V Permit
10. All exhaust gases from drying tumblers, washers, and cabinets are vented through a refrigerated vapor condenser and a carbon absorber, which reduces the total emissions of petroleum solvent vapors by at least 90 percent by weight. [District Rules 2201 and 4672] Federally Enforceable Through Title V Permit

PERMIT UNIT REQUIREMENTS CONTINUE ON NEXT PAGE  
These terms and conditions are part of the Facility-wide Permit to Operate.

11. The flow rate of recovered solvent from the solvent recovery dryer at the termination of the recovery cycle shall not exceed 0.05 liters per minute. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
12. Only Drysolv solvent (dry cleaning fluid) shall be used. [District Rule 2201 & CH&SC 41700] Federally Enforceable Through Title V Permit
13. The VOC emission rate shall not exceed 57.1 lbs. in any one day. [District Rule 2201] Federally Enforceable Through Title V Permit
14. Facility-wide VOC emissions from this facility shall not exceed 61,550 pounds during any rolling 12-month period. [District Rule 2201] Federally Enforceable Through Title V Permit
15. The vapor condenser serving the dry cleaning machine shall be equipped with an operational temperature gauge to measure the exhaust gas temperature of the condenser. The gauge shall be maintained in good working condition at all times and shall be located in an easily accessible location. [40 CFR Part 64] Federally Enforceable Through Title V Permit
16. When the dry cleaning machine is operating, the vapor condenser shall operate at a maximum exhaust gas temperature of 45 degrees Fahrenheit. During each drying cycle, the permittee shall record the condenser exhaust gas temperature and compare the readings with the permitted maximum limit. Upon detecting any exceedance from the permitted maximum condenser exhaust gas temperature, the permittee shall investigate the exceedance and take corrective action to minimize excessive emissions and prevent recurrence of the excursion as expeditiously as practicable. [40 CFR Part 64] Federally Enforceable Through Title V Permit
17. The carbon adsorption system shall be equipped with an operation steam pressure gauge to indicate the steam pressure (in pounds per square inch) used during the carbon canister regeneration cycle. The gauge shall be maintained in good working condition at all times and shall be located in an easily accessible location. [40 CFR Part 64] Federally Enforceable Through Title V Permit
18. During the carbon canister regeneration cycle, the minimum steam pressure used to regenerate the carbon canister shall not be less than 8 pounds per square inches. The complete carbon regeneration cycle time shall be no less than 58 minutes and the carbon canister shall be regenerated no less than once every six loads of garments cleaned. During each carbon regeneration cycle, the permittee shall record the steam pressure (in pounds per square inch), number of loads of garments cleaned between each carbon regeneration cycle, and total time of the carbon regeneration cycle (in minutes). Upon detecting any excursion from these requirements, the permittee shall investigate the excursion and take corrective action to minimize excessive emissions and prevent recurrence of the excursion as expeditiously as practicable. [40 CFR Part 64] Federally Enforceable Through Title V Permit
19. The permittee shall comply with the compliance assurance monitoring and maintenance requirements of 40 CFR Part 64.7. [40 CFR Part 64.7] Federally Enforceable Through Title V Permit
20. If the District or EPA determine that a Quality Improvement Plan is required under 40 CFR 64.7(d)(2), the permittee shall develop and implement the Quality Improvement Plan in accordance with 40 CFR Part 64.8. [40 CFR 64.8] Federally Enforceable Through Title V Permit
21. The permittee shall comply with all recordkeeping and reporting requirements of 40 CFR Part 64.9. [40 CFR Part 64.9] Federally Enforceable Through Title V Permit
22. Records shall be maintained of purchase and actual usage of Drysolv solvent used, pre-washed weight of articles cleaned per load, and the amount of volatile organic compounds contained in the filtration waste material per 100 kilograms dry weight of articles dry cleaned. [District Rule 4672]
23. The permittee shall maintain records of the daily VOC emissions from this dry cleaning machine. [District Rule 2201] Federally Enforceable Through Title V Permit
24. The permittee shall maintain a record of the rolling 12-month summary of actual VOC emissions from all permitted operations. At a minimum, this record shall be updated on a monthly basis. [District Rule 2201] Federally Enforceable Through Title V Permit

PERMIT UNIT REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate.

25. All records shall be retained on-site for a minimum of five years and made available for District inspection upon request. [District Rules 2520 and 4672] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

# San Joaquin Valley Air Pollution Control District

**PERMIT UNIT:** N-3076-6-4

**EXPIRATION DATE:** 03/31/2017

**EQUIPMENT DESCRIPTION:**

LEATHER GARMENTS RECONDITIONING AND DYEING OPERATION SERVED BY AN AIR FILTRATION MODEL BF-108 SPRAY BOOTH.

## PERMIT UNIT REQUIREMENTS

1. Exhaust fans shall be switched on prior to the start of spraying operations. [District Rule 2201] Federally Enforceable Through Title V Permit
2. All filters shall be maintained in good working order. [District Rule 2201] Federally Enforceable Through Title V Permit
3. The particulate matter emissions from the stack of the spray booth shall not exceed 0.1 gr/scf and there shall be no visible emissions. [District Rules 4101 and 4201] Federally Enforceable Through Title V Permit
4. The operator shall store and dispose of fresh or spent solvents and waste solvent cleaning materials such as cloth, paper, etc. in closed, non-absorbent and non-leaking containers. The containers shall remain closed at all times except when depositing or removing material or when it is empty. [District Rules 2201 and 4661] Federally Enforceable Through Title V Permit
5. All waste containing solvents shall be disposed of at a permitted hazardous waste disposal facility. [District Rule 2201] Federally Enforceable Through Title V Permit
6. Permittee shall comply with the requirements of Rule 4663 (Organic Solvent Cleaning, Storage, and Disposal) when performing organic solvent cleaning, storage and disposal of organic solvents and waste solvent materials, coatings, adhesives, catalysts, and thinners. [District Rule 4661] Federally Enforceable Through Title V Permit
7. VOC emission rate shall not exceed 11.2 pounds in any one day. [District Rules 2201 and 4661] Federally Enforceable Through Title V Permit
8. Facility-wide VOC emissions from this facility shall not exceed 61,550 pounds during any rolling 12-month period. [District Rule 2201] Federally Enforceable Through Title V Permit
9. The operator shall maintain a list of each solvent in use, and of the VOC content of each solvent, in lb/gal. [District Rule 4661] Federally Enforceable Through Title V Permit
10. The operator shall keep the following daily usage records: (1) Material name, (2) Volume of each material used, (3) The name and the volume of each solvent, catalyst or thinner added to the material (4) When the material is a mixture of different materials that are blended by the operator, the mix ratio of the batch shall be recorded and the VOC content of the batch shall be calculated and recorded in order to determine compliance with the VOC emission limits. [District Rule 4661] Federally Enforceable Through Title V Permit
11. The permittee shall maintain records of the daily VOC emissions from this operation. [District Rule 2201] Federally Enforceable Through Title V Permit
12. The permittee shall maintain a record of the rolling 12-month summary of actual VOC emissions from all permitted operations. At a minimum, this record shall be updated on a monthly basis. [District Rule 2201] Federally Enforceable Through Title V Permit

PERMIT UNIT REQUIREMENTS CONTINUE ON NEXT PAGE  
These terms and conditions are part of the Facility-wide Permit to Operate.

13. All records shall be retained on site for a period of at least 5 years and shall be made available to APCO, ARB and EPA upon request. [District Rules 2201 and 4661] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

DRY CLEANING

The Facility's Permit to Operate may include Facility-wide Requirements as well as requirements that apply to specific permit units.

This Permit to Operate remains valid through the permit expiration date listed above, subject to payment of annual permit fees and compliance with permit conditions and all applicable local, state, and federal regulations. This permit is valid only at the location specified above, and becomes void upon any transfer of ownership or location. Any modification of the equipment or operation, as defined in District Rule 2201, will require prior District approval. This permit shall be posted as prescribed in District Rule 2010.

Seyed Sadredin  
Executive Director / APCO

David Warner  
Director of Permit Services

# San Joaquin Valley Air Pollution Control District

FACILITY: N-3076-0-1

EXPIRATION DATE: 03/31/2017

## FACILITY-WIDE REQUIREMENTS

1. The owner or operator shall notify the District of any breakdown condition as soon as reasonably possible, but no later than one hour after its detection, unless the owner or operator demonstrates to the District's satisfaction that the longer reporting period was necessary. [District Rule 1100, 6.1; County Rules 110 (san Joaquin)] Federally Enforceable Through Title V Permit
2. The District shall be notified in writing within ten days following the correction of any breakdown condition. The breakdown notification shall include a description of the equipment malfunction or failure, the date and cause of the initial failure, the estimated emissions in excess of those allowed, and the methods utilized to restore normal operations. [District Rule 1100, 7.0; County Rules 110 (San Joaquin)] Federally Enforceable Through Title V Permit
3. The owner or operator of any stationary source operation that emits more than 25 tons per year of nitrogen oxides or reactive organic compounds, shall provide the District annually with a written statement in such form and at such time as the District prescribes, showing actual emissions of nitrogen oxides and reactive organic compounds from that source. [District Rule 1160, 5.0] Federally Enforceable Through Title V Permit
4. Any person building, altering or replacing any operation, article, machine, equipment, or other contrivance, the use of which may cause the issuance of air contaminants or the use of which may eliminate, reduce, or control the issuance of air contaminants, shall first obtain an Authority to Construct (ATC) from the District unless exempted by District Rule 2020 (12/20/07). [District Rule 2010, 3.0 and 4.0; and 2020] Federally Enforceable Through Title V Permit
5. The permittee must comply with all conditions of the permit including permit revisions originated by the District. All terms and conditions of a permit that are required pursuant to the Clean Air Act (CAA), including provisions to limit potential to emit, are enforceable by the EPA and Citizens under the CAA. Any permit noncompliance constitutes a violation of the CAA and the District Rules and Regulations, and is grounds for enforcement action, for permit termination, revocation, reopening and reissuance, or modification; or for denial of a permit renewal application. [District Rules 2070, 7.0; 2080; and 2520, 9.9.1 and 9.13.1] Federally Enforceable Through Title V Permit
6. A Permit to Operate or an Authority to Construct shall not be transferred unless a new application is filed with and approved by the District. [District Rule 2031] Federally Enforceable Through Title V Permit
7. Every application for a permit required under Rule 2010 (12/17/92) shall be filed in a manner and form prescribed by the District. [District Rule 2040] Federally Enforceable Through Title V Permit
8. The operator shall maintain records of required monitoring that include: 1) the date, place, and time of sampling or measurement; 2) the date(s) analyses were performed; 3) the company or entity that performed the analysis; 4) the analytical techniques or methods used; 5) the results of such analysis; and 6) the operating conditions at the time of sampling or measurement. [District Rule 2520, 9.4.1] Federally Enforceable Through Title V Permit
9. The operator shall retain records of all required monitoring data and support information for a period of at least 5 years from the date of the monitoring sample, measurement, or report. Support information includes copies of all reports required by the permit and, for continuous monitoring instrumentation, all calibration and maintenance records and all original strip-chart recordings. [District Rule 2520, 9.4.2] Federally Enforceable Through Title V Permit

FACILITY-WIDE REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate. Any amendments to these Facility-wide Requirements that affect specific Permit Units may constitute modification of those Permit Units.

Facility Name: SNOW CLEANERS INC  
Location: 38 W SONORA ST, STOCKTON, CA 95205  
N3076-0-1; Dec 17 2012 10:24AM - CHAM

10. The operator shall submit reports of any required monitoring at least every six months unless a different frequency is required by an applicable requirement. All instances of deviations from permit requirements must be clearly identified in such reports. [District Rule 2520, 9.5.1] Federally Enforceable Through Title V Permit
11. Deviations from permit conditions must be promptly reported, including deviations attributable to upset conditions, as defined in the permit. For the purpose of this condition, promptly means as soon as reasonably possible, but no later than 10 days after detection. The report shall include the probable cause of such deviations, and any corrective actions or preventive measures taken. All required reports must be certified by a responsible official consistent with section 10.0 of District Rule 2520 (6/21/01). [District Rules 2520, 9.5.2 and 1100, 7.0] Federally Enforceable Through Title V Permit
12. If for any reason a permit requirement or condition is being challenged for its constitutionality or validity by a court of competent jurisdiction, the outcome of such challenge shall not affect or invalidate the remainder of the conditions or requirements in that permit. [District Rule 2520, 9.7] Federally Enforceable Through Title V Permit
13. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of the permit. [District Rule 2520, 9.8.2] Federally Enforceable Through Title V Permit
14. The permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a notification of planned changes or anticipated noncompliance does not stay any permit condition. [District Rule 2520, 9.8.3] Federally Enforceable Through Title V Permit
15. The permit does not convey any property rights of any sort, or any exclusive privilege. [District Rule 2520, 9.8.4] Federally Enforceable Through Title V Permit
16. The Permittee shall furnish to the District, within a reasonable time, any information that the District may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the District copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to EPA along with a claim of confidentiality. [District Rule 2520, 9.8.5] Federally Enforceable Through Title V Permit
17. The permittee shall pay annual permit fees and other applicable fees as prescribed in Regulation III of the District Rules and Regulations. [District Rule 2520, 9.9] Federally Enforceable Through Title V Permit
18. Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to enter the permittee's premises where a permitted source is located or emissions related activity is conducted, or where records must be kept under condition of the permit. [District Rule 2520, 9.13.2.1] Federally Enforceable Through Title V Permit
19. Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit. [District Rule 2520, 9.13.2.2] Federally Enforceable Through Title V Permit
20. Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to inspect at reasonable times any facilities, equipment, practices, or operations regulated or required under the permit. [District Rule 2520, 9.13.2.3] Federally Enforceable Through Title V Permit
21. Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to sample or monitor, at reasonable times, substances or parameters for the purpose of assuring compliance with the permit or applicable requirements. [District Rule 2520, 9.13.2.4] Federally Enforceable Through Title V Permit
22. No air contaminants shall be discharged into the atmosphere for a period or periods aggregating more than 3 minutes in any one hour which is as dark or darker than Ringelmann #1 or equivalent to 20% opacity and greater, unless specifically exempted by District Rule 4101 (02/17/05). If the equipment or operation is subject to a more stringent visible emission standard as prescribed in a permit condition, the more stringent visible emission limit shall supersede this condition. [District Rule 4101 and San Joaquin County Rule 401] Federally Enforceable Through Title V Permit

FACILITY-WIDE REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate.

23. No person shall manufacture, blend, repackage, supply, sell, solicit or apply any architectural coating with a VOC content in excess of the corresponding limit specified in Table of Standards 1 effective until 12/30/10 or Table of Standards 2 effective on and after 1/1/11 of District Rule 4601 (12/17/09) for use or sale within the District. [District Rule 4601, 5.1] Federally Enforceable Through Title V Permit
24. All VOC-containing materials subject to Rule 4601 (12/17/09) shall be stored in closed containers when not in use. [District Rule 4601, 5.4] Federally Enforceable Through Title V Permit
25. The permittee shall comply with all the Labeling and Test Methods requirements outlined in Rule 4601 sections 6.1 and 6.3 (12/17/09). [District Rule 4601, 6.1 and 6.3] Federally Enforceable Through Title V Permit
26. With each report or document submitted under a permit requirement or a request for information by the District or EPA, the permittee shall include a certification of truth, accuracy, and completeness by a responsible official. [District Rule 2520, 9.13.1 and 10.0] Federally Enforceable Through Title V Permit
27. If the permittee performs maintenance on, or services, repairs, or disposes of appliances, the permittee shall comply with the standards for Recycling and Emissions Reduction pursuant to 40 CFR Part 82, Subpart F. [40 CFR 82 Subpart F] Federally Enforceable Through Title V Permit
28. If the permittee performs service on motor vehicles when this service involves the ozone-depleting refrigerant in the motor vehicle air conditioner (MVAC), the permittee shall comply with the standards for Servicing of Motor Vehicle Air Conditioners pursuant to all the applicable requirements as specified in 40 CFR Part 82, Subpart B. [40 CFR Part 82, Subpart B] Federally Enforceable Through Title V Permit
29. Disturbances of soil related to any construction, demolition, excavation, extraction, or other earthmoving activities shall comply with the requirements for fugitive dust control in District Rule 8021 unless specifically exempted under Section 4.0 of Rule 8021 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8021 and 8011] Federally Enforceable Through Title V Permit
30. Outdoor handling, storage and transport of any bulk material which emits dust shall comply with the requirements of District Rule 8031, unless specifically exempted under Section 4.0 of Rule 8031 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8031 and 8011] Federally Enforceable Through Title V Permit
31. An owner/operator shall prevent or cleanup any carryout or trackout in accordance with the requirements of District Rule 8041 Section 5.0, unless specifically exempted under Section 4.0 of Rule 8041 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8041 and 8011] Federally Enforceable Through Title V Permit
32. Whenever open areas are disturbed, or vehicles are used in open areas, the facility shall comply with the requirements of Section 5.0 of District Rule 8051, unless specifically exempted under Section 4.0 of Rule 8051 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8051 and 8011] Federally Enforceable Through Title V Permit
33. Any paved road or unpaved road shall comply with the requirements of District Rule 8061 unless specifically exempted under Section 4.0 of Rule 8061 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8061 and Rule 8011] Federally Enforceable Through Title V Permit
34. Any unpaved vehicle/equipment area that anticipates more than 50 Average annual daily Trips (AADT) shall comply with the requirements of Section 5.1.1 of District Rule 8071. Any unpaved vehicle/equipment area that anticipates more than 150 vehicle trips per day (VDT) shall comply with the requirements of Section 5.1.2 of District Rule 8071. On each day that 25 or more VDT with 3 or more axles will occur on an unpaved vehicle/equipment traffic area, the owner/operator shall comply with the requirements of Section 5.1.3 of District Rule 8071. On each day when a special event will result in 1,000 or more vehicles that will travel/park on an unpaved area, the owner/operator shall comply with the requirements of Section 5.1.4 of District Rule 8071. All sources shall comply with the requirements of Section 5.0 of District Rule 8071 unless specifically exempted under Section 4.0 of Rule 8071 (9/16/2004) or Rule 8011 (8/19/2004). [District Rule 8071 and Rule 8011] Federally Enforceable Through Title V Permit
35. Any owner or operator of a demolition or renovation activity, as defined in 40 CFR 61.141, shall comply with the applicable inspection, notification, removal, and disposal procedures for asbestos containing materials as specified in 40 CFR 61.145 (Standard for Demolition and Renovation). [40 CFR 61 Subpart M] Federally Enforceable Through Title V Permit

FACILITY-WIDE REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate.

36. The permittee shall submit certifications of compliance with the terms and standards contained in Title V permits, including emission limits, standards and work practices, to the District and the EPA annually (or more frequently as specified in an applicable requirement or as specified by the District). The certification shall include the identification of each permit term or condition, the compliance status, whether compliance was continuous or intermittent, the methods used for determining the compliance status, and any other facts required by the District to determine the compliance status of the source. [District Rule 2520, 9.16] Federally Enforceable Through Title V Permit
37. The permittee shall submit an application for Title V permit renewal to the District at least six months, but not greater than 18 months, prior to the permit expiration date. [District Rule 2520, 5.2] Federally Enforceable Through Title V Permit
38. When a term is not defined in a Title V permit condition, the definition in the rule cited as the origin and authority for the condition in a Title V permits shall apply. [District Rule 2520, 9.1.1] Federally Enforceable Through Title V Permit
39. Compliance with permit conditions in the Title V permit shall be deemed in compliance with the following outdated SIP requirements: Rule 401 (San Joaquin), Rule 110 (San Joaquin), and Rule 202 (San Joaquin). A permit shield is granted from these requirements. [District Rule 2520, 13.2] Federally Enforceable Through Title V Permit
40. Compliance with permit conditions in the Title V permit shall be deemed in compliance with the following applicable requirements: SJVUAPCD Rules 1100, sections 6.1 and 7.0 (12/17/92); 2010, sections 3.0 and 4.0 (12/17/92); 2031 (12/17/92); 2040 (12/17/92); 2070, section 7.0 (12/17/92); 2080 (12/17/92); 4101 (2/17/05); 4601 (12/17/09); 8021 (8/19/2004); 8031 (8/19/2004); 8041 (8/19/2004); 8051 (8/19/2004); 8061 (8/19/2004); and 8071 (9/16/2004). A permit shield is granted from these requirements. [District Rule 2520, 13.2] Federally Enforceable Through Title V Permit
41. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
42. On December 31, 2012, the initial Title V permit was issued. The reporting periods for the Report of Required Monitoring and the Compliance Certification Report are based upon this initial permit issuance date, unless alternative dates are approved by the District Compliance Division. These reports are due within 30 days after the end of the reporting period. [District Rule 2520] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

# San Joaquin Valley Air Pollution Control District

**PERMIT UNIT:** N-3076-1-3

**EXPIRATION DATE:** 03/31/2017

**EQUIPMENT DESCRIPTION:**

LAVA TEX IOP MODEL 1L (MACHINE NO. 1) 100 LB CAPACITY PETROLEUM SOLVENT DRY CLEANING MACHINE AND TWO HOYT PETRO-MISER PET105 100 LB CAPACITY SOLVENT RECOVERY DRYERS.

## PERMIT UNIT REQUIREMENTS

---

1. The solvent dry cleaning operation shall comply with District Rule 4672 (Petroleum Solvent Dry Cleaning Operations). [District Rule 4672] Federally Enforceable Through Title V Permit
2. Equipment shall not be operated if solvent liquid and/or vapor is leaking from any portion of the equipment. [District Rule 4672] Federally Enforceable Through Title V Permit
3. Solvents shall be stored in closed containers, except where closed containers are prohibited by law, regulation or fire control authority. [District Rule 4672] Federally Enforceable Through Title V Permit
4. All washer lint traps, button traps, access doors and other parts of the equipment where the solvent may be exposed to the atmosphere shall be kept closed at all times except as required for proper operation or maintenance. [District Rule 4672] Federally Enforceable Through Title V Permit
5. All wastes from dry cleaning facilities subject to Department of Health Services regulation shall be stored, transported and disposed of in accordance with Department of Health Services regulations. [District Rule 4672] Federally Enforceable Through Title V Permit
6. The used filter material shall be put in a sealed container immediately after removal from the filter, unless the dry cleaning system is equipped with either cartridge filters containing paper or carbon or a combination thereof, or reduce the petroleum solvent content in all filtration wastes to one (1) kilogram or less per 100 kilograms dry weight of articles dry cleaned, before disposal, and exposure to the atmosphere. [District Rule 4672] Federally Enforceable Through Title V Permit
7. Used filter material containing paper or carbon or a combination thereof shall be fully drained in a sealed filter housing for at least 24 hours before being discarded, or 12 hours if the filter is dried in a dryer vented to an emission control device, or put in a sealed container immediately after removal from the filter. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
8. A clearly visible label specifying leak inspection and repair cycle information for petroleum solvent dryer shall be posted in accordance with Section 5.6 of District Rule 4672. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
9. Articles which have been cleaned shall be transferred to the dryers within five (5) minutes after they are received from the washer, or shall be stored in closed transfer carts. [District Rule 4672] Federally Enforceable Through Title V Permit
10. The solvent recovery dryers shall recover at least 90 percent of petroleum solvent by weight. [District Rules 2201 and 4672] Federally Enforceable Through Title V Permit
11. The flow rate of recovered solvent from the solvent recovery dryers at the termination of the recovery cycle shall not exceed 0.05 liters per minute. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit

PERMIT UNIT REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate.

12. VOC emissions shall not exceed 41.1 pounds in any one day. [District Rule 2201] Federally Enforceable Through Title V Permit
13. Facility-wide VOC emissions from this facility shall not exceed 61,550 pounds during any rolling 12-month period. [District Rule 2201] Federally Enforceable Through Title V Permit
14. Each vapor condenser serving the solvent recovery dryers shall be equipped with an operational temperature gauge to measure the exhaust gas temperature of the condenser. The gauge shall be maintained in good working condition at all times and shall be located in an easily accessible location. [40 CFR Part 64] Federally Enforceable Through Title V Permit
15. When the solvent recovery dryer is operating, the vapor condenser shall operate at a minimum exhaust gas temperature of 85 degrees Fahrenheit and a maximum exhaust gas temperature of 92 degrees Fahrenheit. During each day of operation, the permittee shall record the condenser exhaust gas temperature and compare the readings with the permitted range. Upon detecting any excursion from the permitted condenser exhaust gas temperature, the permittee shall investigate the excursion and take corrective action to minimize excessive emissions and prevent recurrence of the excursion as expeditiously as practicable. [40 CFR Part 64] Federally Enforceable Through Title V Permit
16. The permittee shall comply with the compliance assurance monitoring and maintenance requirements of 40 CFR Part 64.7. [40 CFR Part 64.7] Federally Enforceable Through Title V Permit
17. If the District or EPA determine that a Quality Improvement Plan is required under 40 CFR 64.7(d)(2), the permittee shall develop and implement the Quality Improvement Plan in accordance with 40 CFR Part 64.8. [40 CFR 64.8] Federally Enforceable Through Title V Permit
18. The permittee shall comply with all recordkeeping and reporting requirements of 40 CFR Part 64.9. [40 CFR Part 64.9] Federally Enforceable Through Title V Permit
19. Records shall be maintained of purchase and actual usage of petroleum solvent used, pre-washed weight of articles cleaned per load, and the amount of volatile organic compounds contained in the filtration waste material per 100 kilograms dry weight of articles dry cleaned. [District Rule 4672]
20. The permittee shall maintain records of the daily VOC emissions from this dry cleaning machine. [District Rule 2201] Federally Enforceable Through Title V Permit
21. The permittee shall maintain a record of the rolling 12-month summary of actual VOC emissions from all permitted operations. At a minimum, this record shall be updated on a monthly basis. [District Rule 2201] Federally Enforceable Through Title V Permit
22. All records shall be retained on-site for a minimum of five years and made available for District inspection upon request. [District Rules 2520 and 4672] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

# San Joaquin Valley Air Pollution Control District

**PERMIT UNIT:** N-3076-5-3

**EXPIRATION DATE:** 03/31/2017

**EQUIPMENT DESCRIPTION:**

OMEGA MODEL CEHD-100-SL-3 CLOSED-LOOP DRY-TO- DRY DRY-SOLV DRY CLEANING MACHINE WITH A REFRIGERATED VAPOR CONDENSER AND A CARBON ADSORBER.

## PERMIT UNIT REQUIREMENTS

---

1. The solvent dry cleaning operation shall comply with District Rule 4672 (Petroleum Solvent Dry Cleaning Operations). [District Rule 4672] Federally Enforceable Through Title V Permit
2. Equipment shall not be operated if solvent liquid and/or vapor is leaking from any portion of the equipment. [District Rule 4672] Federally Enforceable Through Title V Permit
3. Solvents shall be stored in closed containers, except where closed containers are prohibited by law, regulation or fire control authority. [District Rule 4672] Federally Enforceable Through Title V Permit
4. All washer lint traps, button traps, access doors and other parts of the equipment where the solvent may be exposed to the atmosphere shall be kept closed at all times except as required for proper operation or maintenance. [District Rule 4672] Federally Enforceable Through Title V Permit
5. All wastes from dry cleaning facilities subject to Department of Health Services regulation shall be stored, transported and disposed of in accordance with Department of Health Services regulations. [District Rule 4672] Federally Enforceable Through Title V Permit
6. The used filter material shall be put in a sealed container immediately after removal from the filter, unless the dry cleaning system is equipped with either cartridge filters containing paper or carbon or a combination thereof; or reduce the petroleum solvent content in all filtration wastes to one (1) kilogram or less per 100 kilograms dry weight of articles dry cleaned, before disposal, and exposure to the atmosphere. [District Rule 4672] Federally Enforceable Through Title V Permit
7. Used filter material containing paper or carbon or a combination thereof shall be fully drained in a sealed filter housing for at least 24 hours before being discarded, or 12 hours if the filter is dried in a dryer vented to an emission control device, or put in a sealed container immediately after removal from the filter. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
8. A clearly visible label specifying leak inspection and repair information for petroleum solvent dryer shall be posted in accordance with Section 5.6 of District Rule 4672. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
9. Articles which have been cleaned shall be transferred to the dryers within five (5) minutes after they are received from the washer, or shall be stored in closed transfer carts. [District Rule 4672] Federally Enforceable Through Title V Permit
10. All exhaust gases from drying tumblers, washers, and cabinets are vented through a refrigerated vapor condenser and a carbon absorber, which reduces the total emissions of petroleum solvent vapors by at least 90 percent by weight. [District Rules 2201 and 4672] Federally Enforceable Through Title V Permit

PERMIT UNIT REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate.

Facility Name: SNOW CLEANERS INC  
Location: 38 W SONORA ST, STOCKTON, CA 95205  
N-3076-5-3; Dec 17 2012 10:24AM - CHANK

11. The flow rate of recovered solvent from the solvent recovery dryer at the termination of the recovery cycle shall not exceed 0.05 liters per minute. [District Rule 4672 and 40 CFR Part 60 Subpart JJJ] Federally Enforceable Through Title V Permit
12. Only Drysolv solvent (dry cleaning fluid) shall be used. [District Rule 2201 & CH&SC 41700] Federally Enforceable Through Title V Permit
13. The VOC emission rate shall not exceed 57.1 lbs. in any one day. [District Rule 2201] Federally Enforceable Through Title V Permit
14. Facility-wide VOC emissions from this facility shall not exceed 61,550 pounds during any rolling 12-month period. [District Rule 2201] Federally Enforceable Through Title V Permit
15. The vapor condenser serving the dry cleaning machine shall be equipped with an operational temperature gauge to measure the exhaust gas temperature of the condenser. The gauge shall be maintained in good working condition at all times and shall be located in an easily accessible location. [40 CFR Part 64] Federally Enforceable Through Title V Permit
16. When the dry cleaning machine is operating, the vapor condenser shall operate at a maximum exhaust gas temperature of 45 degrees Fahrenheit. During each drying cycle, the permittee shall record the condenser exhaust gas temperature and compare the readings with the permitted maximum limit. Upon detecting any exceedance from the permitted maximum condenser exhaust gas temperature, the permittee shall investigate the exceedance and take corrective action to minimize excessive emissions and prevent recurrence of the excursion as expeditiously as practicable. [40 CFR Part 64] Federally Enforceable Through Title V Permit
17. The carbon adsorption system shall be equipped with an operation steam pressure gauge to indicate the steam pressure (in pounds per square inch) used during the carbon canister regeneration cycle. The gauge shall be maintained in good working condition at all times and shall be located in an easily accessible location. [40 CFR Part 64] Federally Enforceable Through Title V Permit
18. During the carbon canister regeneration cycle, the minimum steam pressure used to regenerate the carbon canister shall not be less than 8 pounds per square inches. The complete carbon regeneration cycle time shall be no less than 58 minutes and the carbon canister shall be regenerated no less than once every six loads of garments cleaned. During each carbon regeneration cycle, the permittee shall record the steam pressure (in pounds per square inch), number of loads of garments cleaned between each carbon regeneration cycle, and total time of the carbon regeneration cycle (in minutes). Upon detecting any excursion from these requirements, the permittee shall investigate the excursion and take corrective action to minimize excessive emissions and prevent recurrence of the excursion as expeditiously as practicable. [40 CFR Part 64] Federally Enforceable Through Title V Permit
19. The permittee shall comply with the compliance assurance monitoring and maintenance requirements of 40 CFR Part 64.7. [40 CFR Part 64.7] Federally Enforceable Through Title V Permit
20. If the District or EPA determine that a Quality Improvement Plan is required under 40 CFR 64.7(d)(2), the permittee shall develop and implement the Quality Improvement Plan in accordance with 40 CFR Part 64.8. [40 CFR 64.8] Federally Enforceable Through Title V Permit
21. The permittee shall comply with all recordkeeping and reporting requirements of 40 CFR Part 64.9. [40 CFR Part 64.9] Federally Enforceable Through Title V Permit
22. Records shall be maintained of purchase and actual usage of Drysolv solvent used, pre-washed weight of articles cleaned per load, and the amount of volatile organic compounds contained in the filtration waste material per 100 kilograms dry weight of articles dry cleaned. [District Rule 4672]
23. The permittee shall maintain records of the daily VOC emissions from this dry cleaning machine. [District Rule 2201] Federally Enforceable Through Title V Permit
24. The permittee shall maintain a record of the rolling 12-month summary of actual VOC emissions from all permitted operations. At a minimum, this record shall be updated on a monthly basis. [District Rule 2201] Federally Enforceable Through Title V Permit

PERMIT UNIT REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate.

25. All records shall be retained on-site for a minimum of five years and made available for District inspection upon request. [District Rules 2520 and 4672] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

Facility Name: SNOW CLEANERS INC  
Location: 38 W SONORA ST, STOCKTON, CA 95205  
N-3076-5-3 : Dec 17 2012 10:21AM - CHAND

# San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-3076-6-3

EXPIRATION DATE: 03/31/2017

## EQUIPMENT DESCRIPTION:

LEATHER GARMENTS RECONDITIONING AND DYEING OPERATION SERVED BY AN AIR FILTRATION MODEL BF-108 SPRAY BOOTH.

## PERMIT UNIT REQUIREMENTS

---

1. Exhaust fans shall be switched on prior to the start of spraying operations. [District Rule 2201] Federally Enforceable Through Title V Permit
2. All filters shall be maintained in good working order. [District Rule 2201] Federally Enforceable Through Title V Permit
3. The particulate matter emissions from the stack of the spray booth shall not exceed 0.1 gr/scf and there shall be no visible emissions. [District Rules 4101 and 4201] Federally Enforceable Through Title V Permit
4. The operator shall store and dispose of fresh or spent solvents and waste solvent cleaning materials such as cloth, paper, etc. in closed, non-absorbent and non-leaking containers. The containers shall remain closed at all times except when depositing or removing material or when it is empty. [District Rules 2201 and 4661] Federally Enforceable Through Title V Permit
5. All waste containing solvents shall be disposed of at a permitted hazardous waste disposal facility. [District Rule 2201] Federally Enforceable Through Title V Permit
6. Permittee shall comply with the requirements of Rule 4663 (Organic Solvent Cleaning, Storage, and Disposal) when performing organic solvent cleaning, storage and disposal of organic solvents and waste solvent materials, coatings, adhesives, catalysts, and thinners. [District Rule 4661] Federally Enforceable Through Title V Permit
7. VOC emission rate shall not exceed 11.2 pounds in any one day. [District Rules 2201 and 4661] Federally Enforceable Through Title V Permit
8. Facility-wide VOC emissions from this facility shall not exceed 61,550 pounds during any rolling 12-month period. [District Rule 2201] Federally Enforceable Through Title V Permit
9. The operator shall maintain a list of each solvent in use, and of the VOC content of each solvent, in lb/gal. [District Rule 4661] Federally Enforceable Through Title V Permit
10. The operator shall keep the following daily usage records: (1) Material name, (2) Volume of each material used, (3) The name and the volume of each solvent, catalyst or thinner added to the material (4) When the material is a mixture of different materials that are blended by the operator, the mix ratio of the batch shall be recorded and the VOC content of the batch shall be calculated and recorded in order to determine compliance with the VOC emission limits. [District Rule 4661] Federally Enforceable Through Title V Permit
11. The permittee shall maintain records of the daily VOC emissions from this operation. [District Rule 2201] Federally Enforceable Through Title V Permit
12. The permittee shall maintain a record of the rolling 12-month summary of actual VOC emissions from all permitted operations. At a minimum, this record shall be updated on a monthly basis. [District Rule 2201] Federally Enforceable Through Title V Permit

PERMIT UNIT REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate.

13. All records shall be retained on site for a period of at least 5 years and shall be made available to APCO, ARB and EPA upon request. [District Rules 2201 and 4661] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.
