

Notice Of Development Of Best Performance Standards

NOTICE IS HEREBY GIVEN that the San Joaquin Valley Air Pollution Control District solicits public comment on development of Best Performance Standards for the following Stationary Source class and category of greenhouse gas emissions:

Full-Time Spark-Ignited Internal Combustion Engines Subject to District Permit Requirements

The District is soliciting public input on the following topics for the subject Class and Category of greenhouse gas emission source:

- Recommendations regarding the scope of the proposed Class and Category (Stationary GHG sources group based on fundamental type of equipment or industrial classification of the source operation),
- Recommendations regarding the unit of activity to be used as the basis for defining the Best Performance Standard,
- Recommendations regarding processes or operational activities the District should consider when establishing Baseline Emissions for the subject Class and Category. Baseline Emissions for this Best Performance Standard are the average GHG emissions emitted by a spark-ignited internal combustion engine during the 2002 – 2004 calendar years.
- Recommendations regarding processes or operational activities the District should consider when converting Baseline Emissions into emissions per unit of activity (i.e. emissions per MMBtu of fuel burned), and
- Recommendations regarding technologies to be evaluated by the District when establishing Best Performance Standards for the subject Class and Category.

Information regarding development of Best Performance Standard for the subject Class and Category of greenhouse gas emission source can be obtained from the District's website at http://www.valleyair.org/Programs/CCAP/CCAP_idx.htm.

Written comments regarding the subject Best Performance Standard should be addressed to James Harader by email, james.harader@valleyair.org, or by mail at SJVUAPCD, 4800 Enterprise Way, Modesto, CA 95356 and must be received by **February 25, 2011**. For additional information, please contact James Harader by e-mail or by phone at (209) 557-6445.

Information regarding the District's Climate Action Plan and how to address GHG emissions impacts under CEQA, can be obtained from the District's website at http://www.valleyair.org/Programs/CCAP/CCAP_idx.htm.
