

SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT

NOTICE OF PUBLIC MEETING

PUBLIC MEETING ON OFFSET EQUIVALENCY ISSUES

NOTICE IS HEREBY GIVEN that a public meeting will be held to present, discuss, and receive comments on the District's draft staff report on the annual offset equivalency demonstration.

The 2014/2015 annual offset equivalency demonstration report revealed that the District will face a challenge in demonstrating equivalency with federal offsetting requirements for nitrogen oxide (NOx) emission increases in the current 2015/16 tracking year. The District's continued demonstration of equivalency with federal offset requirements is important to holders of District-issued NOx ERCs, and to those who may wish to permit new major NOx sources or federal major modifications of existing major NOx sources in the future.

The public meeting will be presented in-person, via Video Conferencing (VTC), and via webcast at the following time and locations:
