CERTAINTEED has requested a short variance from the applicable requirements of District Rules 1080, 2070, 2201, 2520, 4101, and 4354, in addition to conditions of the subject permits. The requested short variance period would be for a consecutive 138 hour 48 minutes period to occur sometime between March 26, 2018, and April 9, 2018. If granted, the variance would allow the exhaust stream from the glass melting furnace to bypass the pre-conditioning chamber, caustic soda injection, EP, and CEMS/COMS while maintenance is performed on the EP.
