<u>Docket No.</u>	<u>Type</u>	<u>Company Name</u>
A. C-22-05S	Short	Vitro Flat Glass LLC 3333 S. Peach Avenue Fresno, CA 93725

Petitioners: Eric Squire

Esthela Soto presented the Staff Report.

VITRO has requested a short variance from the applicable requirements of District Rules 1080, 2070, 2201, 2520, 4101, 4354, and California Health and Safety Code (CH&SC) section 41701, in addition to the applicable conditions of the subject permits. The requested short variance will be from June 12, 2022, to June 17, 2022. If granted, the variance would allow the continued operation of the glass melting furnace and continued glass production while bypassing the emission control and monitoring systems so VITRO can perform maintenance on the EP. In addition the variance will allow excess visible emissions during the bypass.

Eric Squire clarified that this is a standard, yearly shutdown for Vitro Flat Glass and there will be no issues meeting the requirements of the variance.

Mr. Robertson received further clarification from Eric Squire that this shutdown only occurs once a year but there is other maintenance scheduled simultaneously that will be complete by the end of this variance period.

Patrick Houlihan further clarified that if the additional scheduled maintenance goes beyond the allotted 144 hours, Vitro Flat Glass will be subject to excess emissions.
