A.	N-15-08i	Interim	Santa Fe Aggregates Winton Asphalt Plant 11650 North Shaffer Road Winton, CA 95388
----	----------	---------	---------------------------------------------------------------------------------------------

Petitioners: John Lane

Mr. Kalashian presented the Staff Report.

Santa Fe Aggregates has requested an interim variance, to be followed by a regular variance from District Rules 2010, 2201, and 4309, in addition to applicable conditions of the subject permit. The requested interim variance period would be from August 27, 2015, until November 4, 2015, or until the petition for the regular variance can be heard, whichever occurs first. If granted, the variance would allow Santa Fe Aggregates to postpone the compliance source test until a sufficient quantity of asphalt is produced in order to perform the compliance source test.

Mr. Lane requested clarification on the length of an Interim variance. Mr. Houlihan explained an Interim variance will expire in 90 days and the petitioner will be required to apply for a regular variance at the October Hearing Board meeting.

Mr. Lane commented the facility can and will still operate but with reduced productivity.

Public Comment: None

Having decided the petition has met the required findings, on motion of Mr. Gohring and seconded by Mr. Hofmann, unanimously passed, the petitioner was granted an interim variance.

5. Emergency Variance

The Northern Region Hearing Board heard and granted one emergency variance since the June 3, 2015, Hearing Board meeting.
