Aera has requested a short variance from applicable requirements of District Rules 2070, 2201, 2520, and 4623, in addition to applicable conditions of the subject permits. The requested short variance would be for a non-consecutive 144-hour period to occur sometime between April 7, 2015, and July 5, 2015, inclusive. If granted, the short variance would allow for the continued storage of VOC containing liquids in the subject tanks without a functional or operating VRS while Aera performs the subject maintenance.

Mr. Beebout commented the replaced line will better the operation.
