Petitioner: Daniel Mudge

Ms. Soto presented the staff report.

California Resources Production Corporation has requested a short variance from the applicable requirements of District Rules 2070, 2201, 2520, 4401, and 4623, in addition to the applicable conditions of the subject permits. The requested variance would be for 72-hour period sometime between December 10, 2020, and January 22, 2021, inclusive. If granted, the variance would allow the continued storage of VOC containing liquids in the subject tanks without a functional or operating tank VRS. In addition, it will allow wells with open casing vents to continue to produce without being connected to a functional or operating vapory recovery system.
