<u>Docket No.</u>	<u>Type</u>	<u>Company Name</u>
A. S-20-18S	Short	Aera Energy LLC MOCO Dehydration Facility Midway Sunset Oil Field

Petitioner: Robert Beebout

Mr. Moore presented the staff report.

Aera has requested a short variance from the applicable requirements of District Rules 2070, 2201, 2520, 4401, and 4623, in addition to applicable conditions of the subject permits. The requested variance period would be consecutive 144-hour (six day) period to occur sometime between August 1, 2020, and September 30, 2020, inclusive. If granted, the variance would allow Aera to continue to store VOC containing liquids in the subject tanks without an operating or functional vapor system. In addition, it will allow wells with closed casing vents to produce into tanks that do not have a functional or operating vapor recovery system.
