	<u>Docket No.</u>	<u>Type</u>	<u>Company Name</u>
A.	S-21-03S	Short	High Sierra Limited 10600 Oilfield Road Bakersfield, CA 93308

Petitioner: Kristine Boyer and Troy Delfino

Mr. Kalashian presented the staff report.

High Sierra Limited has requested a short variance from the applicable requirements of the District Rules 1080, 2070, 2201, 2520, 4001, and 4703 in addition to the applicable conditions of the subject permits. The requested variance period would be for a 15 non consecutive day period to occur sometime between February 11, 2021 and May 11, 2021 inclusive. If granted, the variance would allow continued operation of the subject cogeneration turbine units without an operational CEMS while new components and software are installed and the CEMS is re-certified.

Dr. Na clarified that there would be no excess emissions associated with the variance. Ms. Boyer confirmed that there is no excess emissions. The variance is to allow High Sierra Limited to operate the CEMS offline while the upgrades are completed.
