CES has requested a short variance from the applicable requirements of District Rules 2070, 2080, and 2201 in addition to the applicable condition of the subject permit. The requested variance would be from January 28, 2022, until March 28, 2022. If granted, the variance would allow CES to postpone compliance source testing the Oxy-Fuel Combustor until the repairs are made.
