### Available Air Quality Tools

- Save up to 10 locations... home, school, mom's work, dad's bike route, dog park, etc.
- Receive alerts during unique air quality episodes.
- Submit confidential air pollution complaints.
- View the daily residential wood-burning status in your area, from November 1 through the end of February.

In addition, many web-based air quality resources have become available that utilize a combination of regulatory-grade air monitors, temporary air monitors, and low-cost sensors to provide real-time information regarding air quality in the San Joaquin Valley, including smoke impacts during wildfire episodes. To see these resources, visit [valleyair.org/wildfires](http://valleyair.org/wildfires) or [fire.airnow.gov](http://fire.airnow.gov).
